

(3) *The agency form number, if any, and the applicable component of the Department sponsoring the collection.*

Form: COPS 28/01. Office of Community Oriented Policing Services, United States Department of Justice.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract.* A sample of local law enforcement agency heads and precinct/district commanders that have received grant funding from the COPS Office will be surveyed regarding the nature and extent of community policing implementation in their agencies and precincts/districts.

To uphold its mandate, the COPS Office has awarded hiring and redeployment grants, innovative grants, and training grants to over 10,000 law enforcement agencies nationwide. While the COPS Office has made significant strides in funding officers it is important to consider the 1994 Crime Bill and the emergence of COPS in a long-term perspective. The proposed survey aims to answer questions regarding the nature and extent of community policing implementation across the United States.

COPS data and prior national surveys of community policing implementation are limited in their capacity to describe how extensive community policing implementation is. In addition, existing data sets do not permit exploration of the likelihood that implementation of community policing varies within jurisdictions, particularly large ones that are decentralized to precinct or district levels. This factor is particularly important because a key element in much of the community policing reform literature is the importance of delegating decision making to the lowest level in the organization. The National Survey of Police Executives, District Commanders and Agencies will be able to capture variations within a jurisdiction.

Surveys will incorporate elements that the COPS Office has identified as key components of community policing and will draw upon prior surveys, other literature, and prior knowledge to develop a comprehensive listing of community policing elements. Questions will provide more precise information about the extent to which each element is implemented.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* This collection is being conducted in two phases as a pilot survey and a larger follow-up survey. Two sections, Section A and Section B will be utilized; a total of approximately 6700 respondents will be surveyed. Estimated time to complete Section A is

20 minutes with no preparation time; estimated time to complete Section B is 1.5 hours including preparation time.

(6) *An estimate of the total public burden (in hours) associated with the collection.* Approximately 6141.6 hours.

Public comment on this proposed information collection is strongly encouraged.

Dated: February 26, 1999.

Brenda E. Dyer,

*Department Deputy Clearance Officer,
