SUPPLEMENTAL INFORMATION:

I. Abstract

The Chemical Weapons Convention (CWC) is a multilateral arms control treaty that seeks to achieve an international ban on chemical weapons (CW). The CWC was signed by the United States on January 13, 1993, and ratified by the U.S. Senate on April 24, 1997. The CWC prohibits, *inter alia*, the use, development, production, acquisition, stockpiling, retention, and direct or indirect transfer of chemical weapons.

The proposed new information collection by BXA will attempt to survey, by telephone, private companies either known to be or are suspected to be engaged in activities involving Schedule 2 chemicals. The survey will help BXA identify and determine which U.S. commercial facilities have a Schedule 2 reporting requirement and will thereby assist the U.S. Government in its efforts to be fully compliant with CWC reporting obligations.

II. Method of Collection

SUPPLEMENTARY INFORMATION: Chapter 19 of the North American Free-Trade Agreement ("Agreement") establishes a mechanism to replace domestic judicial review of final determinations in antidumping and countervailing duty cases involving imports from a NAFTA country with review by independent

binational panels. When a Request for Panel Review is filed, a panel is established to act in place of national courts to review expeditiously the final determination to determine whether it conforms with the antidumping or countervailing duty law of the country that made the determination.

Under Article 1904 of the Agreement, which came into force on January 1, 1994, the Government of the United States, the Government of Canada and the Government of Mexico established *Rules of Procedure for Article 1904 Binational Panel Reviews* ("Rules"). These Rules were published in the **Federal Register** on February 23, 1994 (59 FR 8686).

Two first Requests for Panel Review were filed with the Canadian Section of the NAFTA Secretariat, pursuant to Article 1904 of the Agreement, on February 9, 1999, requesting panel review of the final determination described above.

The Rules provide that:

(a) a Party or interested person may challenge the final determination in whole or in part by filing a Complaint in accordance with Rule 39 within 30 days after the filing of the first Request for Panel Review (the deadline for filing a Complaint is March 11, 1999);

(b) a Party, investigating authority or interested person that does not file a Complaint but that intends to appear in support of any reviewable portion of the final determination may participate in the panel review by filing a Notice of Appearance in accordance with Rule 40 within 45 days after the filing of the first Request for Panel Review (the deadline for filing a Notice of Appearance is March 26, 1999); and

(c) the panel review shall be limited to the allegations of error of fact or law, including the jurisdiction of the investigating authority, that are set out in the Complaints filed in the panel review and the procedural and substantive defenses raised in the panel review.

SUPPLEMENTARY INFORMATION:

Abstract

This submission under the Paperwork Reduction Act represents a request for a revision to an existing collection by the Department of Commerce's National Institute of Standards and Technology. The revision being proposed is a pilot test of modifications to an existing, ongoing collection effort, the National Institute of Standards & Technology, Manufacturing Extension Partnership Program Evaluation Survey, OMB number 0693-0021.

The Manufacturing Extension Partnership is a nationwide system of services and support for smaller manufacturers giving them unprecedented access to new technologies, resources, and expertise. Sponsored by the National Institute of Standards and Technology, the MEP is comprised of a network of locally based manufacturing extension centers working with small manufacturers to help them improve their manufacturing competitiveness.

Obtaining specific information from clients about the impact of MEP services is essential for National Institute of Standards and Technology officials to evaluate program strengths and weaknesses and plan improvements in program effectiveness and efficiency. Recently, program managers completed a new strategic plan focusing greater

attention on a more focused set of program goals and objectives. The new strategic plan has resulted in program managers desire to revisit the current data collection effort. The purpose of the revised collection will be to make it more compatible with the new strategic plan goals and to further examine areas for overall improvement in methodology.

The program wishes to pilot a new, revised data collection effort.

Method of Collection

The Survey will be administered using Computer Assisted Telephone Interviewing (CATI) technology.
