National Park Service

Notice of Receipt of Application for Access to National Park Service Property for the Siting of Mobile Services Antennas

AGENCY: National Park Service, Department of the Interior.

ACTION: Public notice of the receipt of an application for a right-of-way permit for a wireless telecommunications facility, scheduling of a visual evaluation (balloon) test, and the acceptance of public comment.

SUMMARY: Public Notice is hereby given that the National Park Service (NPS) has received an application from Washington, D.C. SMSA Limited Partnership (D.C. SMSA), managing partners Cellco and Bell Atlantic Mobile, for a right-of-way permit to construct, operate and maintain a wireless telecommunication site within lands administered by the George Washington Memorial Parkway. The location within the park is at Great Falls Park, Virginia. The proposed facility would initially consist of a single one hundred and fifty-foot monopole with several design options for both the tower and the associated equipment buildings. The facility would expand on or completely replace an existing 85-foot communications tower and equipment building which currently serves as a signal relay station for the park's radio system. The actual site is

located on the eastern side of Old Dominion Drive, approximately 1/4 mile north of its intersection with Georgetown Pike.

In order to evaluate the visual impact of the proposed facility, a balloon test has been scheduled from March 5th through March 8th, 1999. The balloon, which will be red in color and constructed to approximate the size of one of the proposed antenna platforms, will be tethered to the boom of a crane and held at a height of 150 feet from 8:00 A.M. through 4:30 P.M. on each of the four days.

ADDRESSES: Comments concerning this application or the balloon test should be directed to: National Park Service, George Washington Memorial Parkway, Turkey Run Park, McLean, Virginia 22101. For further information call (703) 289-2516. Interested parties may review the application Monday through Friday, from 8:00 A.M. until 4:00 P.M., at the above address.

DATES: Written comments must be received on or before April 19, 1999.

SUPPLEMENTARY INFORMATION: The above-referenced application was reviewed and deemed complete on February 12th, 1999. Within 60 days of that date, the Superintendent will approve the application; approve the application with changes; deny the application; or notify the applicant of the need for further evaluation to comply with the National Environmental Policy Act (NEPA), National Historic Preservation Act, and/or other applicable laws and regulations.

Before reaching a final decision on this application, the NPS will undertake an Environmental Assessment (EA) in compliance with the NEPA. In addition, the Park Superintendent may choose to conduct a Comprehensive Assessment for wireless communications which will determine the extent to which, and the means by which, George Washington Memorial Parkway can accommodate demands for wireless telecommunication facility sites without derogating park resources, values or purposes. This assessment would also explore the feasibility of co-location of facilities.

National Park Service review of this application will be in accord with all applicable laws and regulations. The NPS regulations for right-of-way permits are located in Part 14 of Title 36 of the Code of Federal Regulations. A draft revision of these regulations was published in the **Federal Register** on December 1, 1997 (62 FR 63488). The NPS will also follow the guidelines developed by the General Services

Administration to implement Section 704(c) of the Telecommunications Act of 1996 (47 U.S.C. 332) which was published in the **Federal Register** on March 29, 1996 (61 FR 14100). Other laws applicable to the National Park System include the National Park Service Organic Act, the National Environmental Policy Act (NEPA), and the National Historic Preservation Act. (NHPA).

Dated: February 24, 1999.

Audrey F. Calhoun,
Superintendent.
