

grants to identify effective treatment programs or models of care that show promise for replication elsewhere. In fiscal year 1999, grants will be made available to identify promising programs that provide treatment services for adolescents. Funds are available only for evaluation and documentation purposes and may not be expended to provide treatment services.

The primary goal of this initiative is to identify currently existing models of adolescent treatment that, when evaluated for client outcomes and cost, under a rigorous study design, demonstrate effectiveness.

Subsequently, documentation for these models will be developed, and those programs identified for replication, as judged by an independent panel of experts, will be invited to exhibit at a conference to disseminate their findings and showcase their models.

The target population for projects funded under this program is adolescents who have a substance abuse (alcohol and drug) problem. The age range includes individuals who are at least twelve years of age, and no older than nineteen years of age at treatment entry.

- Priorities: None.
- Eligible Applicants: Applications may be submitted by units of State or local government and by public and private nonprofit and for-profit entities such as community-based organizations, universities, colleges, and hospitals. The proposed program/model must at a minimum: (1) Be providing services for the target population for a minimum of two years. SAMHSA believes that only programs that have been providing services, based on their model, for a minimum of two years have the expertise and infrastructure to support the rigorous evaluation called for in this GFA; (2) Be collecting data on clients in the target population that include admission, course of treatment, outcome, and follow-up; and (3) Be in compliance with all local, city, county and State licensing requirements.

- Grants/Amounts: Approximately \$4 million will be available to support up to 12 awards under this GFA in FY 1999. The average award is expected to range from \$350,000 to \$450,000 in total costs (direct + indirect). Support may be requested for a period of up to 3 years. The initial award will be for twelve months. Two subsequent twelve-month awards may be made subject to continued availability of funds and documented results. Projects will be reviewed annually to determine if ongoing funding is needed to complete program goals and to determine if adequate progress is being made.

The workshops will be held at the following locations: March 11, 1999—Washington, DC; March 17, 1999—Chicago, IL; and March 19—Los Angeles, CA. For more information, please call Ms. Lisa Wilder, Workshop Coordinator, at 301-984-1471, extension 333.

5. Public Health System Reporting Requirements

This program is not subject to the Public Health System Reporting Requirements.

6. PHS Non-use of Tobacco Policy Statement

The PHS strongly encourages all grant and contract recipients to provide a smoke-free workplace and promote the non-use of all tobacco products. In addition, Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities (or in some cases, any portion of a facility) in which regular or routine education, library, day care, health care, or early childhood development services are provided to children. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

7. Executive Order 12372

Applications submitted in response to the FY 1999 activity listed above are subject to the intergovernmental review requirements of Executive Order 12372, as implemented through DHHS regulations at 45 CFR Part 100. E.O. 12372 sets up a system for State and local government review of applications for Federal financial assistance. Applicants (other than Federally recognized Indian tribal governments) should contact the State's Single Point of Contact (SPOC) as early as possible to

alert them to the prospective application(s) and to receive any necessary instructions on the State's review process. For proposed projects serving more than one State, the applicant is advised to contact the SPOC of each affected State. A current listing of SPOCs is included in the application guidance materials. The SPOC should send any State review process recommendations directly to: Office of Extramural Activities, Policy and Review, Substance Abuse and Mental Health Services Administration, Parklawn Building, Room 17-89, 5600 Fishers Lane, Rockville, Maryland 20857.

The due date for State review process recommendations is no later than 60 days after the specified deadline date for the receipt of applications. SAMHSA does not guarantee to accommodate or explain SPOC comments that are received after the 60-day cut-off.

Dated: March 1, 1999.

Richard Kopanda,
Executive Officer, SAMHSA.
