

FGT states that Section 27 of the General Terms and Conditions (GTC) of its Tariff provides for the recovery by FGT of gas used in the operation of its system and gas lost from the system or otherwise unaccounted for. The fuel reimbursement charges pursuant to Section 27 consist of the Fuel Reimbursement Charge Percentage (FRCP), designed to recover current fuel usage on an in-kind basis, and the Unit Fuel Surcharge (UFS), designed to recover or refund previous under or overcollections on a cash basis. Both the FRCP and the UFS are applicable to Market Area deliveries and are effective for seasonal periods, changing effective each April 1 (for the Summer Period) and each October 1 (for the Winter Period).

FGT states that it is filing to establish an FRCP of 2.76% to become effective April 1, 1999 based on the actual company fuel use, lost and unaccounted for volumes, and Market Area deliveries for the period from April 1, 1998 through September 30, 1998. FGT further states that it is filing to establish a Summer Period UFS of <\$0.0050> per MMBtu to become effective April 1, 1999.
