Approval and Promulgation of Air Quality Implementation Plans; State of Colorado; Greeley Carbon Monoxide Redesignation to Attainment, Designation of Areas for Air Quality Planning Purposes, and Approval of a Related Revision

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing approval of the Greeley carbon monoxide redesignation request, maintenance plan, and 1990 base year emissions inventory. The redesignation request, maintenance plan, and 1990 base year emissions inventory were submitted by the Governor on September 16, 1997. In the Final Rules Section of this **Federal Register**, EPA is approving the State's redesignation request and State Implementation Plan (SIP) revisions as a direct final rule without prior proposal because the Agency views the redesignation and SIP revisions as noncontroversial and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.
