[Docket No. 990304062-9062-01; I.D. 030899C]

Fisheries of the Exclusive Economic Zone Off Alaska; Closures of Specified Groundfish Fisheries in the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is closing specified groundfish fisheries in the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the directed fishing allowances specified for the 1999 total allowable catch (TAC) amounts for the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), March 8, 1999, through 2400 hrs, A.l.t., December 31, 1999.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

In accordance with § 679.20(d)(1)(i), if the Administrator, Alaska Region, NMFS (Regional Administrator), determines that the amount of a target species or "other species" category apportioned to a fishery or, with respect to pollock and Pacific cod, to an inshore or offshore component allocation, will

be reached, the Regional Administrator may establish a directed fishing allowance for that species or species group. If the Regional Administrator establishes a directed fishing allowance, and that allowance is or will be reached before the end of the fishing year, NMFS will prohibit directed fishing for that species or species group in the specified GOA Regulatory Area or district (§ 697.20(d)(1)(iii)).

NMFS will publish final 1999 harvest specifications for these groundfish fisheries in the **Federal Register**. The Regional Administrator has determined that the following TAC amounts are necessary as incidental catch to support other anticipated groundfish fisheries for the 1999 fishing year:

Thornyhead rockfish: entire GOA 1,990 mt
 Atka mackerel: entire GOA 600 mt
 Sablefish: trawl apportionment, entire GOA 1,747 mt
 "Other rockfish": Western Regulatory area 20 mt
 Central Regulatory area 650 mt
 Shortraker/rougeye rockfish: entire GOA 1,590 mt
 Pollock: inshore component, Statistical Area 610 6,936 mt
 inshore component, Statistical Area 620 11,652 mt
 inshore component, Statistical Area 630 9,156 mt
 Pollock: offshore component, entire GOA 0 mt
 Pacific cod: offshore component
 Western Regulatory Area 1,890 mt
 Eastern Regulatory Area 102 mt
 Deep-water flatfish: Western Regulatory Area 240 mt
 Consequently, in accordance with § 679.20(d)(1)(i), the Regional Administrator establishes the directed allowances for the above species or species groups as 0 mt.
 Therefore, in accordance with § 679.20(d)(1)(iii) NMFS is prohibiting directed fishing for these species in the specified areas. These closures will be in effect from the date of filing of the final 1999 harvest specifications with the Office of the Federal Register until 12 midnight, Alaska local time, December 31, 1999.

Under authority of the interim 1999 specifications (64 FR 46, January 4, 1999), pollock fishing opened on January 1, 1999, for amounts specified in that notice. NMFS has since closed Statistical Area 610 to directed fishing for pollock effective 1200 hrs, A.l.t., January 26, 1998 (64 FR 5198, February 3, 1999); Statistical Area 620 to directed fishing for pollock effective 1200 hrs, A.l.t., February 17, 1998 (64 FR 8529, February 22, 1999); Statistical Area 630 to directed fishing for pollock effective
