Proposed Project

1. PHS Supplements to the Application for Federal Assistance SF 424 (0920-0428)—Reinstatement—The Centers for Disease Control and Prevention (CDC) is requesting an emergency clearance for the three-year extension and revision of OMB approval for continued use of the Supplements to the Request for Federal Assistance Application (SF-424). We also plan on modifying the SF 424 form. The Checklist, Program Narrative, and the Public Health System Impact Statement (third party notification) (PHSIS) are a

part of the standard application for State and local governments and for private non-profit and for-profit organizations when applying for financial assistance from PHS grant programs. The Checklist assists applicants to ensure that they have included all required information necessary to process the application. The Checklist data helps to reduce the time required to process and review grant applications, expediting the issuance of grant awards. The PHSIS Third Party Notification Form is used to inform State and local health agencies of community-based proposals submitted by non-governmental applicants for Federal funding. In addition, we are adding two new supplements to the information collection request. One form will be used by CDC and the other by SAMHSA.

The current OMB approval for the supplements was previously submitted by the Department of Health and Human Services (DHHS), Office of the Assistant Secretary of Health (OASH) under OMB number 0937-0189. This submission is time-sensitive and requests emergency approval because these supplements will be utilized by several agencies within DHHS immediately after clearance is granted. The total annual cost to the respondents is estimated to be \$1,184,452.

Respondents	Number of respondents	Number of responses/ respondent	Average burden/ response (in hrs.)	Total burden (in hrs.)
State and local health departments; non-profit and for-profit organizations	7,643	1	4.215	32,215
