Emergency Clearance: Public Information Collection Requirements Submitted to the Office of Management and Budget (OMB)

AGENCY: Health Care Financing Administration, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act (PRA) of 1995, the Health Care Financing Administration (HCFA), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper

performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

We are, however, requesting an emergency review of the information collection referenced below. In compliance with the requirement of section 3506(c)(2)(A) of the PRA of 1995, we have submitted to the Office of Management and Budget (OMB) the following requirements for emergency review. Due to the fact that the collection of this information is needed before the expiration of the normal time limits under OMB's regulations at 5 CFR, Part 1320, we are requesting an emergency review. This collection is necessary to ensure compliance with section 1852 and 1854 of the Balanced Budget Act (BBA). The Plan Benefit Package (PBP) implements the BBA provisions and the regulations, HCFA-1030-FC (which establishes the Medicare+Choice (M+C) program). Under Part C of the Social Security Act (ACT), an M+C organization is required to submit an Adjusted Community Rate Proposal (ACRP), which includes the ACR (Document Identifier: HCFA-R-228) and the PBP (Document Identifier: HCFA-R-262) no later than May 1 of each calendar year. Without emergency approval, entities interested in participating in the M+C program will not be afforded enough time to participate in the PBP prior to the 05/01/1999 time period. (This pilot test is intended to ensure reasonable usability of the reporting tool.) As a result, public harm could occur because eligible individuals may not receive the M+C health insurance options stipulated by the BBA. We need to implement by 05/01/1999 so we can evaluate the results of the pilot and proceed with our plan to implement the PBP for the Plan Year 2001. In order to obtain this goal our time table is as follows: obtain emergency PRA approval for the pilot test by April 1999; evaluate, modify, and submit the revised PRA package by August 1999; receive OMB approval by February 2000; in order to meet the deadline for distribution of ACRP instructions by March 2000 for the contract year 2001.

The PBP will be implemented as a pilot project for Plan Year 2000 ACRP submissions, in addition HCFA requires plans to submit PBP's for Plan Year 2001. The PBP tool collects plan level information, replaces the Benefits Information File (BIF), and standardizes
