

versions of documents placed in the docket prior to the June 1998 inspection (Docket A-98-49, Items II-A2-1 and II-A2-2). In accordance with 40 CFR 194.8, as amended by the final certification decision, EPA is providing the public 30 days to comment on the document.

If EPA determines as a result of the inspection that the proposed systems and processes at RFETS can adequately characterize transuranic waste, we will notify DOE by letter and place the letter in the official Air Docket in Washington, DC, as well as in the informational docket locations in New Mexico. A letter of approval will allow the DOE to ship from RFETS the TRU waste that may be characterized using the approved processes. The EPA will not make a determination of compliance prior to the inspection or before the 30-day comment period has closed.

Information on the certification decision is filed in the official EPA Air Docket, Docket No. A-93-02 and is available for review in Washington, DC, and at the three EPA WIPP informational docket locations in New Mexico. The dockets in New Mexico contain only major items from the official Air Docket in Washington, DC, plus those documents added to the official Air Docket since the October 1992 enactment of the WIPP LWA.

Dated: March 18, 1999.
