(9) For closure certifications: an Air Safety Appraisal for offices which are located on an airport; and

(10) For all certifications: a letter appointing the liaison officer. These proposed certifications do not include any report of the Committee which could be submitted in accordance with sections 706(b)(6) and 707(c) of Public Law 102-567. In December 1995, the Committee decided to forego the optional consultation on proposed certifications. Instead, the Committee would only review certifications after the public comment period closed so its consultation would include the benefit of public comments which has been submitted. This notice does not include the complete certification package because it is too voluminous to publish. Copies of certification packages and supporting documentation can be obtained through the contact listed above.

Once all public comments have been received and considered, the NWS will complete consultation with the Committee and determine whether to proceed with the final certification. If a decision to certify is made, the Secretary of Commerce must publish final certifications in the **Federal Register** and transmit the certifications to the appropriate congressional committees prior to consolidating, automating, and closing the office.
