[CFDA No.: 84.310A]

Parental Assistance Program; Notice Inviting Applications for New Awards for Fiscal Year (FY) 1999

Note To Applicants: This notice is a complete application package. Together with the statute authorizing the program and the Education Department General Administrative Regulations (EDGAR), the notice contains all of the information, application forms, and instructions needed to apply for a grant under this competition.

Purpose of Program: To assist nonprofit organizations, and nonprofit organizations in consortia with local educational agencies (LEAs), in establishing parental information and resource centers that would (1) increase parents' knowledge of and confidence in child-rearing activities, such as teaching and nurturing their young children; (2) strengthen partnerships between parents and professionals in meeting the educational needs of children aged birth through five years and the working relationship between home and school; and (3) enhance the developmental progress of the children assisted under the program.

Eligible Applicants: Nonprofit organizations, and nonprofit organizations in consortia with LEAs, in the following jurisdictions are eligible to apply for funding: California, Colorado, the District of Columbia, Florida, Georgia, Hawaii, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Nevada, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Dakota, Tennessee, Texas, Vermont, Washington, and Wisconsin.

The statute requires the Secretary to ensure that grants are distributed, to the greatest extent possible, to all geographic regions of the United States. Consistent with this statutory requirement, this competition is for eligible applicants in the District of Columbia and the States identified in the preceding paragraph. Grantees in the other States, the Commonwealth of Puerto Rico, and the outlying areas are eligible for continuation awards.

An LEA, by itself, is not eligible for an award. However, an LEA may be part of a consortium with a nonprofit organization that applies. In those instances, the award would be made to the nonprofit organization, which would serve as the fiscal agent.

For purposes of this competition, nonprofit organizations do not include institutions of higher education, State

educational agencies, LEAs, intermediate school districts, government entities, or hospitals.

Deadline for Transmittal of Applications: April 30, 1999.

Deadline for Intergovernmental Review: April 30, 1999.

Available Funds: \$18,000,000.

Estimated Range of Awards: \$200,000 to \$750,000.

(**Note:** Due to anticipated variances in the scope of proposed activities and the number of program beneficiaries, the estimated range is very broad.)

Estimated Number of Awards: 28.

Note: These estimates are projections for the guidance of potential applicants. The Department of Education is not bound by any estimates in this notice.

Project Period: Up to 48 months.

Applicable Regulations: The Education Department General Administrative Regulations (EDGAR) in 34 CFR Parts 74, 75, 77, 79, 81, 82, and 85.

Note: The regulations in 34 CFR Part 80 (Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments) apply to an LEA that is part of a consortium receiving assistance.

Description of Program: Under the Parental Assistance Program, authorized by Title IV of the Goals 2000: Educate America Act (Pub. L. 103-227) (20 U.S.C. 5801 *et seq.*) (the Act), grants are awarded to nonprofit organizations (and nonprofit organizations in consortia with LEAs) to establish and fund parent information and resource centers that provide training, information, and support to (a) parents of children aged birth through five years; (b) parents of children enrolled in elementary and secondary schools; and (c) individuals who work with these parents.

Organizations seeking funding must have the capacity to deliver services of sufficient size, scope, and quality to reach substantial numbers of children and families from diverse populations throughout the State, with a particular focus on parents who are educationally and economically disadvantaged. In providing these services, the organizations must network with clearinghouses, parent centers served under the Individuals with Disabilities Act, parent groups, other organizations and agencies, and parents of elementary and secondary school children.

Using research-based practices and technological advances, the organizations should provide a mix of direct training services and statewide information and support services to address the needs of the targeted populations. Entities with established statewide organizational structures and

proven effectiveness may be more likely to successfully address these needs.

Applicants should be aware that section 1118(g) of the Elementary and Secondary Education Act, as amended by the Improving America's Schools Act of 1994, requires schools and districts receiving Title I funds to assist parents and parent organizations by informing them of the existence and purpose of the parent information and resource center in their State, providing them with a description of the services and programs provided by the center, advising parents on how to use the center, and helping them contact the center. Consequently, applicants should be prepared to address the demand for their services created by this requirement.

Use of Funds: Grant funds received under this program may be used—

(a) For parent training, information, and support programs that assist parents to—

- (1) Better understand their children's educational needs;
- (2) Provide follow-up support for their children's educational achievement;
- (3) Communicate more effectively with teachers, counselors, administrators, and other professional educators and support staff;
- (4) Participate in the design and provision of assistance to students who are not making adequate educational progress;
- (5) Obtain information about the range of options, programs, services, and resources available at the national, State, and local levels to assist parents of children aged birth through five years and parents of children in elementary and secondary schools;
- (6) Seek technical assistance regarding compliance with the requirements of title IV and of other Federal programs relevant to achieving the National Education Goals;
- (7) Participate in State and local decisionmaking;
- (8) Train other parents; and
- (9) Plan, implement, and fund activities that coordinate the education of their children with other Federal programs that serve their children or their families; and

(b) To include State or local educational personnel where such participation will further the activities assisted under the grant.

Program Requirements: Each grantee must—

- (a)(1) Be governed by a board of directors the membership of which includes parents; or
- (2) Be an organization that represents the interests of parents;
- (b) Establish a special advisory committee the membership of which includes—

(1) Parents of children aged birth through five years and parents of children enrolled in elementary and secondary schools; and

(2) Representatives of educational professionals with expertise in improving services for disadvantaged children; and

(3) A broad representation of minority, low-income, and other individuals and groups that have an interest in compensatory education and family literacy;

(c) Use at least one-half the funds provided in the grant in each fiscal year to serve areas with high concentrations of low-income families in order to serve parents who are severely educationally or economically disadvantaged;

(d) Operate a center of sufficient size, scope, and quality to ensure that the center is adequate to serve the parents in the area;

(e) Serve both urban and rural areas;

(f) Design a center that meets the unique training, information, and support needs of parents of children aged birth through five years and of parents of children enrolled in elementary and secondary schools, particularly parents who are economically or educationally disadvantaged;

(g) Demonstrate the capacity and expertise to conduct the effective training information and support activities for which assistance is sought;

(h) Network with—

(1) Clearinghouses;

(2) Parent centers for the parents of infants, toddlers, children, and youth with disabilities served under section 631(e) of the Individuals with Disabilities Act;

(3) Other organizations and agencies;

(4) Established national, State, and local parent groups representing the full range of parents of children aged birth through five years; and

(5) Parents of children enrolled in elementary and secondary schools;

(i) Focus on serving parents of children aged birth through five years and parents of children enrolled in elementary and secondary schools, who are parents of low-income, minority, and limited English proficient children; and

(j) Use part of the funds received under this program to establish, expand, or operate Parents as Teachers (PAT) programs or Home Instruction Programs for Preschool Youngsters (HIPPPY) programs, as defined in section 405 of the Act.

The statute does not require a specific amount or percentage of funds to be spent on PAT or HIPPPY programs. However, the PAT and HIPPPY programs,

like the other components of the center, should be integrated with the center's overall activities. On an average, grantees have used approximately one-third of their grant to support PAT and/or HIPPPY programs. (A brief description of the PAT and HIPPPY programs may be found in the appendix.)

To be eligible for funding, an applicant must meet each of the statutory requirements referenced above. Each application for assistance must include assurances that the grantee will comply with these requirements.

Non-Federal Contribution: To be eligible for a continuation award, in each fiscal year after the first fiscal year a grantee receives assistance under this program, the grantee must demonstrate that a portion of the services provided by the grantee will be supported through non-Federal contributions. Those contributions may be in cash or in kind.

Appendix

Descriptions of the Parents as Teachers (PAT) and the Home Instructional Program for Preschool Youngsters (HIPPY)

Parents as Teachers (PAT)

Parents as Teachers (PAT) is an early childhood parent education and family support program designed to empower all parents to give their child the best possible start in life. The program provides parents with information on child development from birth to age 5 and suggests learning opportunities that encourage the development of language, intellect, and physical and social skills. PAT National is located in Missouri and since 1985 has served more than a half million Missouri families. The program has also been replicated in 43 other states, Washington, DC,

Australia, England, New Zealand and the West Indies.

Major components of the program include personalized home visits by certified parent educators, group meetings for parents to share information, developmental and health screenings, referrals to other community services not offered by PAT, and administrative and clerical support. Programs may be designed to provide weekly, biweekly or monthly home visits. The parent educator would invest approximately 1073 hours making home visits, planning and keeping records, traveling, conducting group meetings, etc. to provide a year-round (1 month start-up, 11 month service delivery) program for 30 families (including additional visits for selected families).

For additional information call (314) 432-4330, write to Parents as Teachers National Center, Inc., 10176 Corporate Square Drive, Suite 230, St. Louis, Missouri 63132, or visit the web site at www.patn.org.

Home Instruction Program for Preschool Youngsters

The Home Instruction Program for Preschool Youngsters (HIPPY) is a home-based, early intervention program that provides parents with the training and materials to engage in daily learning experiences with their preschoolers, ages three, four and five. HIPPY, USA is located, in New York City and is the national network, technical assistance, and training program that supports the growth and development of new sites, as well as the current 121 local organizations serving over 15,000 families in 28 States, the District of Columbia and Guam.

Major components of the program include paraprofessional home visits, group meetings for parents to share information, training, curriculum, research evaluation and technical assistance. Paraprofessional home visitors train parents to use developmentally appropriate and culturally sensitive HIPPY materials as the basis of these opportunities for learning and time together as a family. Programs may be designed to provide weekly or biweekly home visits, and biweekly or monthly group meetings. A paraprofessional working 20 hours per week could serve 12-15 families, making home visits, conducting group meetings, traveling, completing weekly reports, etc. A program coordinator would be responsible for administering the HIPPY program, supervising and monitoring the paraprofessionals, and record keeping. For additional information, please call (212) 532-7730, write to HIPPY USA, 220 East 23rd Street, Suite 300, New York, New York 10010, or visit the web site at www.c3pg.com.

Performance Measures

Parental Information and Resources Centers (PIRCs)

The Government Performance and Results Act (GPRA) of 1993 places new management expectations and requirements on Federal departments and agencies by creating a framework for more effective planning, budgeting, program evaluation, and fiscal accountability for Federal programs. The intent of the Act is to improve public

confidence by holding departments and agencies accountable for achieving program results. Departments must set program goals and objectives and measure and report on their achievements. One important source of program information on successes and lessons learned is the project evaluation and other information collected under individual grants.

In addition, the U.S. Department of Education is committed to forging a new partnership with grantees that is focused on results. The Department is required to publish performance standards and measures as a part of the program announcement to enable applicants to develop applications that incorporate such standards. After the competition for awards is completed, the Department will work cooperatively with grantees to develop performance agreements that include the performance standards to measure progress toward meeting project objectives. These performance agreements will be developed within 60 days after grants are awarded.

The Department has identified four performance objectives for the Parental Assistance Program: (1) to increase the number and types of partnerships between parents and schools, (2) to increase parents' awareness of education issues, (3) to establish, expand or operate Parents As Teachers (PAT) and/or Home Instruction Programs for Preschool Youngsters (HIPPPY), and (4) to develop and sustain partnerships/networks with other organizations, agencies, and parent centers. These performance objectives and others that are directly related to the purposes of the authorizing legislation shall form the basis of the performance agreement that all discretionary grantees will develop in cooperation with the Department.

To assist applicants in understanding how a performance agreement might be developed, we are providing a sample template (see Table 1). The sample identifies the key components of a performance plan (objectives, indicators, baseline data, desired outcomes, and source, periodicity, next update of data) and an example of each

component. Applicants may incorporate all or parts of the examples on the sample template along with additional objectives in their application; applicants may also use another similar format. It is important, however, that all applications are not only developed to achieve successful project outcomes, but that they also include a process to measure progress towards attaining those outcomes.

The performance agreements will be used during the life of the grant to ensure that project outcomes are achieved. Progress will be assessed via regularly scheduled communication, which may include telephone calls, letters, and site visits, between Department staff and the project director. Where sufficient progress is not being achieved, the Department and the grantee will work together to identify strategies and resources to overcome challenges and resolve problems. When necessary, the Department and the grantee may modify the performance agreements.

SAMPLE TEMPLATE PERFORMANCE AGREEMENT PARENTAL INFORMATION AND RESOURCE ASSISTANCE CENTERS (PIRCS)

Program Purpose: To assist nonprofit organizations and nonprofit organizations in consortia with local education agencies in establishing parental information and resource assistance centers to increase knowledge of and confidence in child-rearing activities, and strengthen partnerships between parents and professionals in meeting the educational needs of children, the working relationship between home and school; and enhancing the developmental progress of the children assisted under the program.

PROTECTION OF HUMAN SUBJECTS IN RESEARCH (Attachment to ED 424)

I. Instructions to Applicants about the Narrative Information that Must be Provided if Research Activities Involving Human Subjects are Planned

If you marked item 11 on the application "Yes" and designated exemptions in 11a, **(all research activities are exempt)**, provide sufficient information in the application to allow a determination that the designated exemptions are appropriate. Research involving human subjects that is exempt from the regulations is discussed under **II.B. "Exemptions,"** below. The Narrative must be succinct. **Provide this information in an "Item 11/Protection of Human Subjects Attachment" and insert this attachment immediately following the ED 424 face page.**

If you marked "Yes" to item 11 on the face page, and designated no exemptions from the regulations **(some or all of the research activities are nonexempt)**, address the following six points for each nonexempt activity. In addition, if research involving human subjects will take place at collaborating site(s) or other performance site(s), provide this information before discussing the six points. Although no specific page limitation applies to this section of the application, be succinct. Provide the six-point narrative and discussion of other performance sites in an **"Item 11/Protection of Human Subjects Attachment" and insert this attachment immediately following the ED 424 face page.**

(1) Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable.

(2) Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the cir-

cumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

II. Information on Research Activities Involving Human Subjects

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Is it a research activity?

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge, such as an exploratory study or the collection of data to test a hypothesis, it is research.* Activities which meet this definition constitute research whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Is it a human subject?

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.” (1) *If an activity involves obtaining information about a living person by manipulating that person or that person’s environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met.* (2) *If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of *exemptions* are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects’ responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects’ financial standing, employability, or reputation. *If the subjects are children, this exemption applies only to research involving educational tests or observations of pub-*

lic behavior when the investigator(s) do not participate in the activities being observed. [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.
