Type of Review: New.

Title: Similarities Classification Validation Research Study for 1998 Civics National Assessment of Educational Progress.

Frequency: Once.

Affected Public: Individuals or households.

Reporting and Recordkeeping Hour Burden:

Responses: 1,500.

Burden Hours: 2,899.

Abstract: The student classification study involves teachers' estimates of the academic ability of their students and of their students' performance on the NAEP relative to each achievement level. Teachers will also classify performance of "anonymous" students represented in assessment booklets. These estimates are made with respect to the assessment framework and achievement levels descriptions. Teachers will not know how individual students performed on the assessment. The correspondence between classifications by teachers and

classifications based on student performances will be measured.
