SUPPLEMENTARY INFORMATION: Notice of these meetings is given under the Federal Advisory Committee Act, 5 U.S.C. App. 2. Under the authority of the General Services Administration Federal Advisory Committee Regulations, 41 Code of Federal Regulations § 101-6.1015(b)(2), this notice is given with less than 15 days notice due to the exceptional circumstances. During the closing days of 1998 through the first three weeks of 1999 the commercial fishing industry lost four vessels and 11 lives off the Northeast and Mid-Atlantic coasts of the United States. This alarming death rate occurred in an industry that is considered one of America's most dangerous and if left unabated will be the deadliest year in over a decade. As a result, the Coast Guard chartered a Task Force to conduct a fast track study to: Determine the factual circumstances of these casualties; examine these incidents in the context of historical data for loss of life and property; provide quick feedback to industry; review the current fishing vessel safety program and past recommendations that have the potential for reducing loss of life and property; recommend the most significant measures that have great potential for reducing the loss of life and property; and develop a direction to be pursued by CFIVAC, the Coast Guard, and industry. The Coast Guard will complete the Task Force Report on, or about, April 5, 1999, and desires that CFIVAC review the report and make its recommendations as soon as possible. It is essential for CFIVAC to meet as quickly as possible due to the urgency of this matter. Therefore, it is not possible to provide 15 days prior notification of this meeting. Interested parties, including members of Congress, have been advised of this meeting.
