AGENCY: Office of Surface Mining, Interior.

ACTION: Proposed revisions to an existing system of records.

SUMMARY: In accordance with the Privacy Act of 1974, as amended (5 U.S.C. 552a), the Office of Surface Mining (OSM) is issuing public notice of its intent to modify an existing Privacy Act system of records notice, OSM-12, "Application for Blaster Certification in Federal Program States and on Indian Lands-Computer Tracking System." The revisions will update the System Name, System Location addresses, System Manager(s), further define the Authority for Maintenance of the System, and clarify the Notification Procedure and Record Access Procedures.

The Office of Management and Budget, in its Circular A-130, requires an additional 10-day period (for a total of 40 days in which to make these comments. Comments received within 40 days of publication in the **Federal Register** will be considered. The system will be effective as proposed at the end of the comment period, unless comments are received which would require a contrary determination.

ADDRESSES: Send written comments to the U.S. Department of the Interior, Office of Surface Mining, Privacy Act Officer, Mail Stop 262-SIB, 1951 Constitution Avenue, NW, Washington, DC 20240. You may also hand deliver comments to the same address.
