Eligible Applicants: Universities and four-year colleges on behalf of a faculty member who holds a doctorate or equivalent in their respective field.

Project Duration: The announcement for Priority Area 1.01 is soliciting applications for project periods of three years with the first year as a planning grant. However, requests for project periods of four or five years will be considered if the applicant can make a strong justification for the need for a

longer project period in order to complete the research. It should be noted that requests for longer project periods will only be granted in only rare instances. Awards, on a competitive basis, will be for the first one-year planning budget period. Applications for continuation funds under these awards beyond the first-year budget period, but within the established project period, will be entertained in subsequent years on a noncompetitive basis, subject to availability of funds, satisfactory progress of the grantee, and a determination that continued funding would be in the best interests of the Government.

Federal Share of Project Costs: The maximum Federal share is \$75,000 for the first-year budget period. The Federal share for the subsequent years is approximately \$150,000 for each year of the project period. The Federal Share is inclusive of indirect costs.
