To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (301) 443±7978. Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Treatment Outcomes and Performance Pilot Studies (TOPPS)

[OMB No. 0930±0182; extension, no change]

The TOPPS program awarded contracts to 14 States to develop and pilot test performance and outcomes measures for substance abuse treatment services. The pilot studies are collecting data from substance abuse clients, including pregnant women, women with dependent children, adolescents, and managed care clients. Measures of addiction severity and other outcomes are being obtained at admission, discharge and post-discharge. These States were granted OMB clearance on data collection until September 30, 1999. SAMHSA is requesting an extension of OMB approval for two of these States, Utah and North Dakota, to allow them to complete data collection. The estimated burden for this extension is summarized below.
