SUPPLEMENTARY INFORMATION: The Salt Lake Field Office, BLM, received an application from PFS for a railroad line on the west side of Skull Valley, and is cooperating with the Nuclear Regulatory Commission (NRC) by providing an analysis of the railroad and plan amendment for inclusion into an environmental impact statement to be prepared by NRC. The proposed BLM amendment would consider an exception to the Transportation and Utility Corridor Decision, to allow a right-of-way for a railroad and related facilities to PFS outside a designated corridor. Issues identified for the railroad access include: fire, rangeland health, noxious weeds, cultural resources, wildlife, wild horses, wetlands, historic trails, wilderness study areas, recreation, visual, access, minerals, geology, and threatened and endangered plants. Public participation is being sought at this initial stage in the planning process to ensure the RMP amendment addresses all issues, problems, and concerns from those interested in the management of lands under the jurisdiction of the Salt Lake Field Office.
