DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. 99-031-1]

Wildlife Services; Availability of Environmental Assessment and Finding of No Significant Impact

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that the Animal and Plant Health Inspection Service has prepared an environmental assessment and a finding of no significant impact for a program to alleviate damage to agriculture, property, natural resources, and human health or safety caused by nonmigratory Canada geese, migratory Canada geese, and urban ducks in the Commonwealth of Virginia. The environmental assessment provides a basis for our conclusion that the methods to be employed to alleviate such damage will not have a significant impact on the quality of the human environment.

ADDRESSES: Copies of the environmental assessment and finding of no significant impact are available for public inspection at USDA, room 1141, South Building, 14th Street and Independence Avenue SW., Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays. Persons wishing to inspect those documents are requested to call ahead on (202) 690-2817 to facilitate entry into the reading room.

FOR FURTHER INFORMATION CONTACT: Mr. Martin Lowney, State Director, Wildlife Services, APHIS, P.O. Box 130, Moseley, VA 23120. Copies of the environmental assessment and finding of no significant impact may be obtained by contacting Mr. Lowney at the above address or by calling (804) 739-7739.

SUPPLEMENTARY INFORMATION:

Background

Wildlife Services of the Animal and Plant Health Inspection Service cooperates with Federal agencies, State and local governments, and private individuals to research and implement the best methods of managing wildlife to protect human health and safety and prevent damage to agriculture, property, and natural resources.

In this document, APHIS is advising the public of the availability of an environmental assessment relative to the management by Wildlife Services of conflicts and damage caused by nonmigratory Canada geese, migratory Canada geese, and urban ducks in the Commonwealth of Virginia.

The habitat preference, breeding and feeding behavior, and adaptability of nonmigratory Canada geese, migratory Canada geese, and urban ducks can involve conflicts with humans and affect human health and safety in a number of ways, including the following: by contaminating surface water and ground cover with fecal matter, causing damage to aircraft and other means of transportation as a result of collisions, and causing injury to approaching humans, especially children, through aggressive action. The environmental assessment examines the environmental impacts of Wildlife Services activities to manage such conflicts and damage and provides a basis for our conclusion that the methods to be employed to alleviate such damage will not have a significant impact on the quality of the human environment.

The environmental assessment and finding of no significant impact have been prepared in accordance with: (1) The National Environmental Policy Act of 1969, as amended (NEPA) (42 U.S.C.

4321 *et seq.*), (2) Regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500-1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372).

Done in Washington, DC, this 13th day of April 1999.

Joan M. Arnoldi,

Acting Administrator, Animal and Plant Health Inspection Service.
