Approval and Promulgation of State Plans for Designated Facilities and Pollutants: Kentucky**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: EPA proposes to approve the Section 111(d) Plan submitted by the Kentucky Division for Air Quality (DAQ) for the Commonwealth of Kentucky on December 3, 1998, for implementing and enforcing the Emissions Guidelines applicable to existing Municipal Solid Waste Landfills. The Plan was submitted by the Kentucky DAQ to satisfy certain Federal Clean Air Act requirements. In the Final Rules Section of this **Federal Register**, EPA is approving the Kentucky State Plan submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates that it will not receive any significant, material, and adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no significant, material, and adverse comments are received in response to this rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action.

Endangered and Threatened Wildlife and Plants; Proposed Rule To List the Sierra Nevada Distinct Population Segment of California Bighorn Sheep as Endangered**AGENCY:** Fish and Wildlife Service, Interior.**ACTION:** Proposed rule.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), propose to make permanent the provisions of the emergency rule listing the Sierra Nevada distinct population segment of California bighorn sheep (*Ovis canadensis californiana*) as an endangered species pursuant to the Endangered Species Act of 1973, as amended (Act). The emergency rule listing the population is published concurrently in this issue of the **Federal Register**. The population historically occurred only in the Sierra Nevada in California from Sonora Pass, Mono County south to Walker Pass, Kern County. Currently, the Sierra Nevada bighorn sheep is known from five disjunct subpopulations along the eastern escarpment of the Sierra Nevada in Mono and Inyo counties, California. A total of about 100 animals are known to exist. All five subpopulations are imminently threatened by mountain lion predation and disease. We solicit additional data and information that may assist us in making a final decision on this proposed action.

DATES: Comments from all interested parties must be received by June 21, 1999. Public hearing requests must be received by June 4, 1999.**ADDRESSES:** Submit comments and materials concerning this proposal to the Field Supervisor, U.S. Fish and Wildlife Service, Ventura Fish and Wildlife Office, 2493 Portola Rd., Suite
