

a Metropolitan Statistical Area and has fewer than 50 beds.

This notice merely recognizes CHAP as a national accreditation organization for hospices that request participation in the Medicare program. As evidenced by the following data for the cost of surveys, there are neither significant costs nor savings for the program and administrative budgets of Medicare. Therefore, this notice is not a major rule as defined in Title 5, United States Code, section 804(2) and is not an economically significant rule under Executive Order 12866.

Therefore, we have determined, and the Secretary certifies, that this notice will not result in a significant impact on a substantial number of small entities and will not have a significant effect on the operations of a substantial number of small rural hospitals. Therefore, we are not preparing analyses for either the RFA or section 1102(b) of the Act.

In fiscal year 1996, there were 2,148 certified hospices participating in the Medicare program. We conducted 258 initial surveys, 322 recertification surveys (both at a cost of \$634,904), and 145 complaint surveys.

In fiscal year 1997, there were 2,270 certified hospices. This was an increase of 122 facilities. We conducted 180 initial surveys, 354 recertification surveys (both at a cost of \$330,686), and 237 complaint surveys.

In fiscal year 1998, there were 2,290 certified hospices. This was an increase of 20 facilities. We conducted 126 initial surveys, 196 recertification surveys (both at a cost of \$360,783), and 201 complaint surveys.

As the data above indicate, the number of hospices and the cost for conducting hospice surveys by State agencies are increasing. There was a 6.6 percent increase in hospices within 3 years (fiscal years 1996 through 1998). The fiscal year 1999 appropriation for hospice survey activities was not increased, and these surveys were included within the lowest priority category. This appropriation does not allow sufficient resources for some regions to meet the survey demand, especially for resurvey activity, which remains a small proportion of eligible facilities (less than 9 percent for a maximum resurvey once every 12 years). Hospices accredited by CHAP would be surveyed every 3 years. The numbers of participating providers continue to increase. In an effort to better assure the health, safety, and services of beneficiaries in hospices already certified, as well as to provide relief to State budgets in this time of tight fiscal constraints, we deem hospices accredited by CHAP as

meeting our Medicare requirements. Thus, we continue our focus on assuring the health and safety of services by providers and suppliers already certified for participation in a cost-effective manner.

In accordance with the provisions of Executive Order 12866, this notice was reviewed by OMB.
