Approval and Promulgation of Maintenance Plan Revisions; Ohio**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: We are proposing to approve a March 18, 1999, request from Ohio for a State Implementation Plan (SIP) revision of the Stark County (Canton, Ohio) ozone maintenance plan. The maintenance plan revision establishes new transportation conformity mobile source emissions budgets for the year 2005. We are approving the allocation of a portion of the safety margin for volatile organic compounds (VOCs) and oxides of nitrogen (NO_x) to the area's 2005 mobile source emissions budgets for transportation conformity purposes. This allocation will still maintain the total emissions for the area at or below the attainment level required by the transportation conformity regulations. In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP revision, as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If we receive no adverse comments in response to that direct final rule we plan to take no further activity in relation to this proposed rule. If EPA receives significant adverse comments, in writing, which have not been addressed, we will withdraw the direct final rule and address all public comments received in a subsequent final rule based on this proposed rule.

The EPA will not institute a second comment period on this action.

DATES: We must receive comments on this proposed rule by May 20, 1999.

ADDRESSES: Send written comments to: J. Elmer Bortzer, Chief, Regulation Development Section, Air Programs Branch, (AR-18J), U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois, 60604.
