NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* Design Information Questionnaire.

3. *The form number if applicable:* IAEA Form N-71.

4. *How often the collection is required:* Once.

5. *Who will be required or asked to report:* Licensees of facilities on the U.S. eligible list who have been notified in writing by the Commission to submit the form.

6. *An estimate of the number of responses:* One.

7. *The number of annual respondents:* One.

8. *An estimate of the total number of hours needed annually to complete the requirement or request:* 360.

9. *An indication of whether Section 3507(d), Pub. L. 104-13 applies:* Not applicable.

10. *Abstract:* Licensees of facilities that appear on the U.S. eligible list, pursuant to the US/IAEA Safeguards Agreement, and who have been notified in writing by the Commission, are required to complete and submit a Design Information Questionnaire, IAEA Form N-71 (and the appropriate associated IAEA Form), to provide information concerning their installation for use of the International Atomic Energy Agency.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW (lower level), Washington, DC. OMB clearance requests are available at the NRC worldwide web site (<http://www.nrc.gov/NRC/PUBLIC/OMB/index.html>). The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer by May 21, 1999. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards and Advisory Committee on Nuclear Waste Working Group Meeting; Notice of Meeting

The ACRS and ACNW Working Group will hold a joint meeting on May 11, 1999, Room T-2B3, 11545 Rockville Pike, Rockville, Maryland.

The meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

Tuesday, May 11, 1999—8:30 a.m. until 12:00 Noon

The Joint Working Group will discuss the staff's proposed framework for risk-informed regulation in the Office of Nuclear Material Safety and Safeguards. The purpose of this meeting is to gather information, analyze relevant issues and facts, and formulate proposed positions and actions, as appropriate, for deliberation by the full Committees.

Oral statements may be presented by members of the public with the concurrence of the Working Group; written statements will be accepted and made available to the Working Group. Electronic recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Working Group, their consultants, and staff. Persons desiring to make oral statements should notify the cognizant ACRS/ACNW staff member named below five days prior to the meeting, if possible, so that appropriate arrangements can be made.

During the initial portion of the meeting, the Working Group, along with any consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Working Group will then hear presentations by and hold discussions with representatives of the NRC staff, their consultants, and other interested persons regarding these matters.

Further information regarding topics to be discussed, whether the meeting has been canceled or rescheduled, the Working Group's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by contacting the Senior Fellow, John N. Sorensen (telephone 301/415-7372) between 8:00 a.m. and 5:45 p.m. (EDT) or by e-mail JNS@NRC.gov. Persons planning to attend this meeting are urged to contact the above-named individual one to two working days prior to the meeting to be

advised of any potential changes in the proposed agenda, etc., that may have occurred.

Dated: April 15, 1999.

Richard P. Savio,

Associate Director for Technical Support, ACRS/ACNW.

NUCLEAR REGULATORY COMMISSION

Biweekly Notice; Applications and Amendments to Facility Operating Licenses Involving No Significant Hazards Considerations

I. Background

Pursuant to Public Law 97-415, the U.S. Nuclear Regulatory Commission (the Commission or NRC staff) is publishing this regular biweekly notice. Public Law 97-415 revised section 189 of the Atomic Energy Act of 1954, as amended (the Act), to require the Commission to publish notice of any amendments issued, or proposed to be issued, under a new provision of section 189 of the Act. This provision grants the Commission the authority to issue and make immediately effective any amendment to an operating license upon a determination by the

Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

This biweekly notice includes all notices of amendments issued, or proposed to be issued from March 27 through April 9, 1999. The last biweekly notice was published on April 7, 1999 (64 FR 17021).

Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The Commission has made a proposed determination that the following amendment requests involve no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. The basis for this proposed determination for each amendment request is shown below.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination.

Normally, the Commission will not issue the amendment until the expiration of the 30-day notice period. However, should circumstances change during the notice period such that failure to act in a timely way would result, for example, in derating or shutdown of the facility, the Commission may issue the license amendment before the expiration of the 30-day notice period, provided that its final determination is that the amendment involves no significant hazards consideration. The final determination will consider all public and State comments received before action is taken. Should the Commission take this action, it will publish in the **Federal Register** a notice of issuance and provide for opportunity for a hearing after issuance. The Commission expects that the need to take this action will occur very infrequently.

Written comments may be submitted by mail to the Chief, Rules and Directives Branch, Division of Administration Services, Office of
