DEPARTMENT OF THE INTERIOR

National Park Service

Selma to Montgomery National Historic Trail Advisory Council; Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act, Pub. L. 92-463, that a meeting of the Selma to Montgomery National Historic Trail Advisory Council will be held May 13, 1999, at 9:00 am, at the town hall in Whitehall, Alabama.

The Selma to Montgomery National Historic Trail Advisory Council was established pursuant to Pub. L. 100-192 establishing the Selma to Montgomery National Historic Trail. This law was put in place to advise the National Park Service on such issues as preservation of trail routes and features, public use, standards for posting and maintaining trail markers, and administrative matters.

The matters to be discussed include:

- Cooperative Agreements
- Federal Advisory Council Act
- Interpretive Themes
- Interpretive and Visitor Center locations
- Historic route treatment

The meeting will be open to the public. However, facilities and space for

accommodating members of the public are limited and persons will be accommodated on first come, first served basis. Any member of the public may file a written statement concerning the matters to be discussed with Lee Edwards, Trail Manager.

Persons wishing further information concerning this meeting, or who wish to submit written statements may contact Lee Edwards, Trail Manager, Selma to Montgomery National Historic Trail, P.O. Box 5690, Montgomery, AL 36103, telephone 334-353-3744 or 334-727-6390.

Lee Edwards,

Trail Manager.

BILLING CODE 4310-70-M

INTERNATIONAL TRADE COMMISSION

Submission for OMB Review; Comment Request

AGENCY: United States International Trade Commission.

ACTION: Agency proposal for the collection of information submitted to the Office of Management and Budget (OMB) for review; comment request.

SUMMARY: In accordance with the provisions of the Paperwork Reduction Act of 1995 (P.L. 104-13), the Commission has submitted a proposal for the collection of information to OMB for approval. The proposed information collection is a 3-year extension of the current "generic clearance" (approved by the Office of Management and Budget under control No. 3117-0016) under which the Commission can issue information collections (specifically, producer, importer, purchaser, and foreign producer questionnaires and certain institution notices) for the following types of import injury investigations: countervailing duty, antidumping, escape clause, market disruption, NAFTA safeguard, and "interference with programs of the USDA." Any comments submitted to OMB on the proposed information collection should be specific, indicating which part of the questionnaires or study plan are objectionable, describing the problem in detail, and including specific revisions or language changes.

DATES: To be assured of consideration, comments should be submitted to OMB on or before May 21, 1999.

ADDRESSES: Comments about the proposal should be directed to the Office of Information and Regulatory Affairs, Office of Management and

Budget, New Executive Office Building, Washington, DC 20503, Attention: David Rossker, Desk Officer for U.S. International Trade Commission. Copies of any comments should be provided to Robert Rogowsky (United States International Trade Commission, 500 E Street, S.W., Washington, DC 20436).

FOR FURTHER INFORMATION CONTACT: Copies of the proposed collection of information and supporting documentation may be obtained from Debra Baker (USITC, tel. no. 202-205-3180). Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its internet server (<http://www.usitc.gov>).

SUPPLEMENTARY INFORMATION:

(1) The proposed information collection consists of five forms, namely the *Sample Producers'*, *Sample Importers'*, *Sample Purchasers'*, and *Sample Foreign Producers' questionnaires* (separate forms are provided for questionnaires issued for the five-year reviews) and *Sample Notice of Institution for Five-Year Reviews*.

(2) The types of items contained within the sample questionnaires and institution notice are largely determined by statute. Actual questions formulated for use in a specific investigation depend upon such factors as the nature of the industry, the relevant issues, the ability of respondents to supply the data, and the availability of data from secondary sources.

(3) The information collected through questionnaires issued under the generic clearance for import injury investigations are consolidated by Commission staff and form much of the statistical base for the Commission's determinations. Affirmative Commission determinations in countervailing duty and antidumping investigations result in the imposition of additional duties on imports entering the United States. If the Commission makes an affirmative determination in a five-year review, the existing antidumping or countervailing duty order will remain in place. The data developed in escape-clause, market disruption, and interference-with-USDA-program investigations (if the Commission finds affirmatively) are used by the President/U.S. Trade Representative to determine the type of

relief, if any, to be provided to domestic industries. The submissions made to the Commission in response to the notices of institution of five-year reviews form the basis for the Commission's

determination whether a full or expedited review should be conducted. (4) Likely respondents consist of businesses (including foreign businesses) or farms that produce, import, or purchase products under

investigation. Estimated total annual reporting burden for the period July 1999–June 2002 that will result from the collection of information is presented below.

TABLE 1—PROJECTED ANNUAL BURDEN DATA, BY TYPE OF INFORMATION COLLECTION, JULY 1999–JUNE 2002

Item	Producer questionnaires	Importer questionnaires	Purchaser questionnaires	Foreign producer questionnaires	Institution notices for 5-year reviews	Total
Estimated burden hours imposed annually for July 1999–June 2002						
Number of respondents	890	871	575	208	86	2,630
Frequency of response	1	1	1	1	1	1
Total annual responses	890	871	575	208	86	2,630
Hours per response	52.6	44.1	23.2	28.0	7.4	39.9
Total hours	46,825	38,426	13,335	5,832	636	105,054

No recordkeeping burden is known to result from the proposed collection of information.

Issued: April 15, 1999.

By order of the Commission.

Donna R. Koehnke,
Secretary.

BILLING CODE 7020–02–P

INTERNATIONAL TRADE COMMISSION

[Investigations Nos. 731–TA–823–824 (Preliminary)]

Certain Aperture Masks From Japan and Korea¹

Determinations

On the basis of the record² developed in the subject investigations, the United

States International Trade Commission determines, pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. § 1673b(a)), that there is no reasonable indication that an industry in the United States is materially injured or threatened with material injury, or that the establishment of an industry in the United States is materially retarded, by reason of imports from Japan of certain aperture masks, provided for in subheading 8540.91.50 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (LTFV).³

Also, pursuant to 19 U.S.C. 1677(24)(A), the Commission determines that the subject imports from Korea that are alleged to be sold at LTFV are negligible. The Commission's investigation with respect to Korea is thereby terminated pursuant to 19 U.S.C. 1673b(a)(1).

Background

On February 24, 1999, petitions were filed with the Commission and the Department of Commerce by BMC Industries, Inc., Minneapolis, MN, alleging that an industry in the United States is materially injured and threatened with material injury by reason of LTFV imports of certain aperture masks from Japan and Korea. Accordingly, effective February 24, 1999, the Commission instituted antidumping investigations Nos. 731–TA–823–824 (Preliminary).

Notice of the institution of the Commission's investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International

Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of March 3, 1999 (64 FR 10316). The conference was held in Washington, DC, on March 17, 1999, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on April 12, 1999. The views of the Commission are contained in USITC Publication 3185 (April 1999), entitled Certain Aperture Masks from Japan and Korea: Investigations Nos. 731–TA–823–824 (Preliminary).

Issued: April 15, 1999.

By order of the Commission.

Donna R. Koehnke,
Secretary.

INTERNATIONAL TRADE COMMISSION

[Investigation No. TA–201–69]

In the Matter of Certain Steel Wire Rod; Notice of Commission Determination Not To Conduct a Portion of the Hearing In Camera

AGENCY: U.S. International Trade Commission.

ACTION: Commission determination not to close any part of the hearing to the public.

SUMMARY: The Commission has determined to deny the requests of petitioners and Respondents Group (foreign producers in Japan, Trinidad & Tobago, Turkey, Germany, France, Spain, the United Kingdom, Italy, Venezuela, Brazil, and the American Wire Producers Association) to conduct

¹ The products covered by these investigations are all aperture masks (also known as "shadow masks") made from aluminum-killed, open-coil annealed steel (decarburized) (known generally as "AK steel") for color picture tubes ("CPTs") used in television sets. AK steel includes the following types of steel: low carbon, AF (annealing-free) steel, AK type A steel (commonly referred to as AKM steel), AK type B steel, and general AK steel. The aperture masks covered by the scope generally have a vertical pitch (distance between the centers of two apertures) of greater than 0.28 mm. Specifically excluded from the scope are the following products: (1) aperture masks made from FeNi 36 alloy (whether sold under the brand names Invar, Inovar or LLTE); (2) aperture masks that have a vertical pitch of less than 0.28 mm that are generally used for color display tubes ("CDTs") used in computer monitors; and (3) grille masks (a grille mask replaces the slots in an aperture mask with an array of finely tensioned vertical wires). The merchandise subject to these investigations is provided for in subheading 8540.91.50 of the Harmonized Tariff Schedule of the United States (HTS). Although the HTS subheading is provided for convenience and customs purposes, the written description of the merchandise is dispositive.

² The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR § 207.2(f)).

³ Commissioners Carol T. Crawford and Stephen Koplan dissenting.
