

regarding special features or conditions which might contribute to prices beyond standard expectations are also included in the survey.

Use of the Information: Analysis of the Facilities survey data will provide updated information on the status of scientific and engineering research facilities. The survey will provide comparable data from which trends can be observed. The information can be used by Federal policy makers, planners, and budget analysts in making policy decisions, as well as by academic officials, the scientific/engineering establishment, and state agencies that fund universities. The Follow-Up Survey data are expected to be used to make more exact and, as a result, more valid judgements concerning the reasonableness of facility costs.

Burden on the Public: The Facilities survey will be sent by mail to approximately 475 academic institutions and 100 nonprofit research organizations and hospitals. The completion time per academic institution is expected to average 24 hours and the completion time per research organization/hospitals is expected to average 5 hours. Assuming a 90% response rate, this would result in an estimated burden of 10,260 hours for academic institutions and 450 hours for nonprofit research organizations/hospitals.

The screener to the Follow-Up Survey will be sent by e-mail to approximately 70 institutions. The completion time per academic institution is expected to average 30 minutes. Assuming a 90% response rate, the estimated burden would be 32 hours for academic institutions.

The Follow-Up Survey will be sent by mail to the qualifying institutions of which there is expected to be approximately 42. The completion time per academic institution is expected to average 1.5 hours. Assuming a 90% response rate, the estimated burden would be 57 hours for academic institutions.

Dated: April 19, 1999.

Suzanne H. Plimpton,

Reports Clearance Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-289]

GPU Nuclear, Inc., et al.; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of GPU Nuclear, Inc., et al., (the licensee) to withdraw its November 25, 1998, application as supplemented by letter dated February 12, 1999, for proposed amendment to Facility Operating License No. DPR-50 for the Three Mile Island Nuclear Station, Unit No. 1, located in Dauphin County, Pa.

The proposed amendment would have, in part, extended the Technical Specification (TS) reporting interval in TS 4.19.5 from 90 days to 12 months.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on December 16, 1998 (63 FR 69342). However, by letter dated February 12, 1999, the licensee withdrew the proposed change request.

For further details with respect to this action, see the application for amendment dated November 25, 1998, as supplemented February 12, 1999, which withdrew that portion of the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Law/Government Publications Section, State Library of Pennsylvania, Walnut Street and Commonwealth Avenue, P.O. Box 1601, Harrisburg, PA 17105.

Dated at Rockville, Maryland, this 13th day of April 1999.

For the Nuclear Regulatory Commission.

Timothy G. Colburn,

Senior Project Manager, Section 2, Project Directorate I, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Nuclear Waste; Notice of Meeting

The Advisory Committee on Nuclear Waste (ACNW) will hold its 109th meeting on May 11-13, 1999, Room T-

2B3, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance.

The schedule for this meeting is as follows:

Tuesday, May 11, 1999—1:00 P.M. until 6:00 P.M.

Wednesday, May 12, 1999—8:30 A.M. until 6:00 P.M.

Thursday, May 13, 1999—8:30 A.M. until 4:00 P.M.

The following topics will be discussed:

A. *ACNW Planning and Procedures*—The Committee will hear a briefing from its staff on issues to be covered during this meeting. The Committee will also consider topics proposed for future consideration by the full Committee and Working Groups. The Committee will discuss ACNW-related activities of individual members.

B. *Risk Communications*—The Committee will begin to prepare for an October Working Group meeting on this topic with a number of lead-in presentations. These will include discussions with representatives from other government agencies, private industry, and the National Academy of Sciences, as well as professional risk communication experts. Risk communication initiatives underway within the NRC will also be discussed.

C. *Yucca Mountain Review Plan*—The NRC staff will discuss the strategy for converting the Issue Resolution Status Reports for the proposed high-level waste repository at Yucca Mountain into a review plan for the repository license application.

D. *Preparation of ACNW Reports*—The Committee will discuss planned reports on the following topics: biological effects of low levels of ionizing radiation, a White Paper on Repository Design Issues at Yucca Mountain and other topics discussed during this and previous meetings as the need arises.

E. *Meeting with NRC's Executive Director for Operations (EDO)*—The Committee will meet with the EDO to discuss items of mutual interest.

F. *Miscellaneous*—The Committee will discuss miscellaneous matters related to the conduct of Committee activities and organizational matters and complete discussion of activities and specific issues that were not completed during previous meetings, as time and availability of information permit.

Procedures for the conduct of and participation in ACNW meetings were published in the **Federal Register** on September 29, 1998 (63 FR 51967). In accordance with these procedures, oral
