

and the National Environmental Policy Act. Other activities of the Framework Project involve improving long-term cooperation and coordination among the Forest Service, tribes, local governments, state and federal agencies.

On November 20, 1998, the Region published a Notice of Intent in the **Federal Register** identifying five problem areas to address in an Environmental Impact Statement: old forest ecosystems; aquatic, riparian and meadow ecosystems; fire and fuels management; noxious weeds; and, lower westside hardwood ecosystems. Prior to drafting the Notice of Intent, the Pacific Southwest Region and Pacific Southwest Research Station reviewed recent science and gathered public comment and related information during a series of 37 community workshops throughout the Sierra and other towns in California and Nevada. Publication of the Notice of Intent initiated a 60-day opportunity for public comment, including 27 additional community workshops. To date, the Forest Service has received 3000 comments via letters, postcards, and e-mail. Response to these comments is integrated into the alternatives being developed to address the five problem areas.

In response to the significant public interest in the development of alternatives, the Forest Service is making available summary descriptions of alternatives that may appear in the draft EIS. The Forest Service is not soliciting public comment on these preliminary drafts, but is making them available so people may be better prepared to comment on the draft EIS when it is published.

At present, several alternatives are being developed by the Forest Service. These alternatives reflect extensive public comment and suggestions, as well as recent scientific information. To view summaries of these draft alternatives, please see the USDA Forest Service Region 5 World Wide Web site www.r5.fs.fed.us or contact USDA Forest Service, Sierra Nevada Framework Project, 801 I Street, Room 419, Sacramento, CA, 95814 to receive a copy by mail.
