SUPPLEMENTARY INFORMATION:

National Highway Traffic Safety Administration

Title: Older Person's Driving and Transportation Issues.

OMB Number: 2127-NEW.

Type of Request: New information collection.

Abstract: NHTSA proposes to conduct a survey by telephone among some nationally representative samples of 3,220 adults, including older adults. Participation by respondents would be voluntary. NHTSA's information needs require collection of information to assess the awareness of the American public concerning the mobility issues of seniors and establish benchmarks against which progress in improving seniors' safety and mobility can be assessed over time.

In conducting the proposed survey, the interviewers would use computer-aided telephone interviewing (CATI) to reduce interview length and minimize recording errors. A Spanish-language translation and bilingual interviewers are proposed to minimize language barriers to participation. The proposed survey would be anonymous and confidential.

Affected Public: Randomly selected members of the general public aged sixteen and older in telephone households.

Estimated Total Annual Burden: 882.

ADDRESSES: Send comments, within 30 days, to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th Street, NW, Washington, D.C. 20503, Attention NHTSA Desk Officer.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Departments estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. A Comment to OMB is most effective if OMB receives it within 30 days of publication.

Issued in Washington, D.C., on April 20, 1999.
