### Description

The Project Profile and Volunteer Activity Survey (PPVA) has served for almost two decades as the principal instrument for collecting project, volunteer and client demographic, and volunteer assignment information for projects funded under three federal programs—RSVP, FGP, and SCP, collectively known as the Senior Corps. These data are essential to the agency's oversight and management of the programs; presentation of specific and aggregate program information to Congress and OMB; promulgation of general information on the programs for the public, project sponsors, and prospective volunteers; and development of technical assistance and training for projects to maximize their impact on local community needs.

In January 1999, the National Senior Service Corps (Senior Corps) announced a 60-day review and comment period, ending March 22, 1999, during which project sponsors and the public were encouraged to submit comments on the proposed PPVA data collection instruments. Existing sponsors were provided copies of the draft, concurrent

with **Federal Register** publication. The only major proposed revision was to reduce the frequency of collection from annually to every two years. Minor modifications were proposed to all three instruments as follows: allow sponsors to check more than one sponsor type category, add "Indian Tribes" and "Volunteer Management Organizations" to the sponsor type listing, add a question on availability of access to the Internet, and delete the question on budgeted volunteers/VSYs which can be derived elsewhere. Minor modifications to the RSVP instrument were as follows: Move Senior Center group programs not providing adult day care to category 213, move programs for dropouts to category 334, incorporate child literacy programs in category 312, incorporate adult literacy programs in category 338, delete category 336 split between categories 312 and 338 by age. Minor modifications to the FGP and SCP instruments were as follows: add a question on how many potential volunteers were ineligible due to over-income status; and revise age groupings for the stipended programs for better consistency with Census groups, i.e. 60-64, 65-74, 75-84, 85 and over. For the SCP instrument, "Nutrition Sites" has been deleted and "Public Health Agencies" added as station types.

Fifteen (15) comments were received from almost 1,300 existing Senior Corps projects and the public. Nine of the comment (9) were pertinent to RSVP only, two (2) to SCP only, one (1) to FGP only, one (1) to FGP and SCP, and two (2) to all three programs. Most of the comments were favorable, asked questions, or supported retention of categories as proposed. Based on the comments received, no changes to the proposed instruments were deemed necessary.

Once approved by OMB, the data collection instruments will be completed every two years by all public and private, non-profit organizations that receive National Senior Service Corps funds. First administration of the instruments is scheduled for 1999.

Dated: April 21, 1999.
