FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission

April 16, 1999.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents,

including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before June 28, 1999. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Les Smith, Federal Communications Commissions, 445 12th Street, S.W., Room 1-A804, Washington, DC 20554 or via the Internet to lesmith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Les Smith at (202) 418-0217 or via the Internet at lesmith@fcc.gov.

SUPPLEMENTARY INFORMATION:

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Emergency Clearance: Public Information Collection Requirements Submitted to the Office of Management and Budget (OMB)

In compliance with the requirements of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Department of Health and Human Services (DHHS), has submitted to the Office of Management and Budget (OMB) the following request for emergency review. We requesting an emergency review because the original OMB clearance for this project expired on 12/31/98 and the collection of this information is essential to the mission of the Department.

Without emergency approval of the proposed information collections described below, the Department can not complete this study that will answer key questions about assisted living and help inform state and federal policy-makers. The bulk of the data collection for this project has been successfully completed and preliminary analysis has begun but the remaining data collection is critical. To understand whether or not assisted living is meeting the needs of the frail elderly, we must get a clearer picture of the discharged residents. Policy makers currently have no information on this vulnerable population of frail elderly. The proposed data collection will provide information such as their length of stay, why they left assisted living, and what type of care setting they moved into after their discharge. This information is key because it will help answer crucial questions about whether assisted living meets its promise of allowing resident to "age in place" (thereby avoiding serious disruptions to their lives) and the degree to which assisted living serves as a viable alternative to nursing homes. These are important and timely policy issues that should benefit greatly from the study's findings.

And delay in our ability to collect these data is likely to compromise both response rates and data quality. Any increase in the time between re-contact and the original assessment of the resident, when consent for re-contact and contact information was obtained, will reduce the response rate. Contact information becomes less accurate as time passes, and delay will mean that project staff will simply not be able to find as many of the discharged residents. Data quality will be compromised because of increases in

the time between their decision to leave the facility and project queries asking them to reconstruct the logic of that decision. In addition, with delay, mortality will be higher in the discharged resident sample, requiring the use of more proxy respondents, whose recollections or perceptions may be less reliable than responses from the residents themselves.

DHHS is requesting that OMB grant emergency approval for 180 days. We are requesting approval by *April 30, 1999*.

Title and Description of Information Collection: The data collection for which emergency clearance is sought is for the study "National Study of Assisted Living for the Frail Elderly (OMB 0990-0217)." Facilities included in the original field data collection will be contacted again. Project staff will determine which of the residents included in the original resident sample in the facility have left the facility. Using contact information obtained during the initial assessment, project staff will contact those respondents (or their proxy respondents) for a telephone interview. The interview will include inquiries about the respondents' reasons for selecting the original facility, changes over time in their preferences for different features of assisted living, their length of stay, specific reasons for leaving facility, and a description of their current residential setting.
Respondents: Discharged residents or their proxies; *Number of Respondents:* 306; *Number of Responses per Respondent:* one; *Average Burden Per Response:* 19 minutes; *Total Burden:* 97 hrs.

To request more information or a copy of the proposed data collection, please contact Pam Doty on (202) 690-6443.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of information technology.

Written comments and recommendations for the proposed information collections should be immediately sent directly to the OMB Desk Officer designated at the following address:

Branch, Attention: Allison Eydt, New
