

Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

FGT states that Riverside has requested a connection and measurement instrumentation for gas lift operations at an existing well connect, Vermilion Resources Meter Station. It is indicated that two check valves will be added to the existing flange on the riser to connect Riverside's 2-inch delivery meter to measure volumes into Riverside. FGT states that it would also install 15 feet of connecting pipe to be installed from the riser to Riverside's meter station. It is stated that the gas lift gas will fuel Riverside's compressors when their pressure is too low to deliver gas into FGT's system at the existing receipt point. It is further indicated that, when well pressure is high enough to allow gas to enter FGT's system, the proposed delivery point will close, allowing the delivery into the FGT system through the existing meter.

FGT indicates that it will be able to deliver to Riverside up to 250 Mcf per day. FGT estimates that the proposed facilities will cost \$30,000, which would be reimbursed by Riverside. FGT also states that the proposed delivery point is not prohibited by the existing tariff.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.
