

develop alternative training programs. The MMS published the proposed rule in the **Federal Register** on April 20, 1999 (63 FR 19318). We will be accepting comments throughout the 90-day comment period, which closes on July 19, 1999.

Registration

The workshop will not have a registration fee. However, to assess the probable number of participants, MMS asks participants to register by contacting Wilbon Rhome by June 1, 1999, at the phone numbers or email address provided for further information.

Proceedings

Proceedings will be transcribed and copies will be available for purchase. We will provide details for obtaining copies of the proceedings during the workshop.

Dated: April 21, 1999.

E. P. Danenberger,

Chief, Engineering and Operations Division.

Extension of Comment Period for Control of Emissions of Air Pollution From New Nonroad Spark-Ignition Engines Rated Above 19 Kilowatts and New Land-Based Recreational Spark-Ignition Engines; Notice of Proposed Finding

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed finding; notice of extension of comment period.

SUMMARY: EPA is extending the comment period for the Notice of Proposed Finding for new nonroad spark-ignition engines rated above 19 kilowatts and new land-based recreational spark-ignition engines. The Notice of Proposed Finding was published in the **Federal Register** on February 8, 1999 (64 FR 6008). The close of the comment period for the proposed finding is April 12, 1999. EPA is extending the closure of the comment period to June 11, 1999.

DATES: Comments regarding all issues related to the notice of proposed finding will be accepted until June 11, 1999.

ADDRESSES: Comments on this proposal should be sent to Public Docket A-98-

01 at the U.S. Environmental Protection Agency, 401 M Street, SW, Room M-1500, Washington DC 20460. EPA requests that a copy of comments also be sent to Alan Stout, U.S. EPA, Engine Programs and Compliance Division, 2000 Traverwood Dr., Ann Arbor, MI 48105.

FOR FURTHER INFORMATION CONTACT: Ines Storhok, U.S. EPA, Engine Programs and Compliance Division, (734) 214-4575; storhok.ines@epa.gov.

SUPPLEMENTARY INFORMATION: On February 8, 1999, EPA published a notice of proposed finding for an emission control program for new nonroad spark-ignition engines rated above 19 kilowatts and new land-based recreational spark-ignition engines (64 FR 6008). In this proposal, EPA proposed a finding that nonroad spark-ignition engines rated above 19 kilowatts, as well as all land-based recreational nonroad spark-ignition engines, cause or contribute to air quality nonattainment in more than one ozone or carbon monoxide nonattainment area. The comment period ended April 12, 1999. EPA has received several requests to extend the comment period by 60 days to give affected parties more time to address the issues raised in the notice of proposed finding. EPA agrees that an extension of the comment period may be beneficial. Therefore, EPA is extending the comment period to June 11, 1999.

Dated: April 22, 1999.

Robert Perciasepe,

Assistant Administrator for Air and Radiation.

40 CFR Part 228

[FRL-6320-3]

Ocean Dumping; Amendment of Site Designation

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) proposes to amend the site designation for the San Francisco Deep Ocean Disposal Site (SF-DODS), an existing deep ocean dredged material disposal site located off San Francisco, California, by setting a permanent annual disposal volume limit and clarifying conditions and requirements for use of the site.

Use of the SF-DODS, at the proposed annual volume limit of 4.8 million cubic yards, is consistent with, and is an important component of the regional Long Term Management Strategy for the Placement of Dredged Material in the San Francisco Bay Region (LTMS). Clarifications to the original site designation Rule, developed from experience with and monitoring of site use since designation, include addition of management measures and other site use requirements to further minimize the potential for any adverse environmental impacts.

DATES: Comments must be received on or before June 1, 1999.

ADDRESSES: Send questions or comments to: Ms. Kathleen Dadey, Dredging and Sediment Management Team, U.S. Environmental Protection Agency, Region IX (WTR-8), 75 Hawthorne Street, San Francisco, CA 94105, telephone (415) 744-1995.

FOR FURTHER INFORMATION CONTACT: Ms. Kathleen Dadey, Dredging and Sediment Management Team, U.S. Environmental Protection Agency, Region IX (WTR-8), 75 Hawthorne Street, San Francisco, CA 94105, telephone (415) 744-1995 or Mr. Allan Ota, telephone (415) 744-1980.

SUPPLEMENTARY INFORMATION: The primary supporting documents for this designation amendment are the Final EIS for the Designation of a Deep Water Ocean Dredged Material Disposal Site off San Francisco, California (August 1993), the Long Term Management Strategy for the Placement of Dredged Material in the San Francisco Bay Region Final Policy EIS/Programmatic EIR (October, 1998), and the SF-DODS designation Final Rule (40 CFR 228.15(l)(3)). All are available for public inspection at the following locations:

1. EPA Region IX, Library, 75 Hawthorne Street, 13th Floor, San Francisco, California 94105.
2. EPA Public Information Reference Unit, Room 2904, 401 M Street, S.W., Washington, DC 20460.
3. ABAG/MTC Library, 101 8th Street, Oakland, California 94607.
4. Alameda County Library, 835 C Street, Hayward, California 94541.
