Approval and Promulgation of State Implementation Plans; California State Implementation Plan Revision, South Coast Air Quality Management District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the California State Implementation Plan (SIP) which concern the control of volatile organic compound (VOC) emissions from paper, fabric, and film coating operations; graphic arts, coatings and ink manufacturing; plastic, rubber, and glass coatings; motor vehicle and mobile equipment non-assembly line coating operations; and solvent cleaning operations.

The intended effect of proposing approval of these rules is to regulate emissions of VOCs in accordance with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). In the Final Rules Section of this **Federal Register**, the EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will not take effect and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this rule. Any parties interested in

commenting on this rule should do so at this time.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed approval.

SUMMARY: The United States Environmental Protection Agency (EPA) is proposing to approve revisions to the Operating Permit Rule submitted by the State of New Jersey to fulfill the requirements of Title V of the Clean Air Act, as amended on November 15, 1990. The revisions extend the deadlines for permit applications submitted in electronic format by affected sources. We are proposing to approve the revised Operating Permit Rule which allows electronic applications to be submitted by February 4, 1999 and May 4, 1999, respectively for the last two waves of affected sources. In the "Rules and Regulations" section of this **Federal Register**, EPA is publishing a separate document that will serve as the agency's decision to approve the State rule revision. EPA is approving New Jersey's revised Operating Permit Rule, codified at N.J.A.C. 7:27-22, as a direct final rule without prior proposal in the view that the subject revision is noncontroversial and therefore would receive no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this rule. If EPA receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule.
