### III. Consolidation of Proceedings

Section 801(d) of the Copyright Act, 17 U.S.C., as amended by the Technical Amendments to the Satellite Home Viewer Act of 1994, Pub. L. 105-80, states that "[t]he Librarian of Congress, upon the recommendation of the Register of Copyrights, . . . shall reimburse the arbitrators presiding in distribution proceedings at such intervals and in such manner as the Librarian shall provide by regulation. . . . Payments to the arbitrators shall be considered reasonable costs incurred by the Library of Congress and the Copyright Office for purposes of section 802(h)(1)." Funds to pay the arbitrators come from the royalty funds under consideration in the distribution proceeding. Because there are insufficient funds available from the Musical Works Fund for any single year to cover the projected cost of an arbitration proceeding that would require oral testimony, the Copyright Office is consolidating the consideration of the distribution of the 1995, 1996, 1997, and 1998 Musical Works Funds into a single proceeding in order to have sufficient funds to meet its financial obligations to the arbitrators.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 40-8681]

### Notice of Consideration of a License Amendment for International Uranium (USA) Corporation's White Mesa Uranium Mill and an Opportunity for a Hearing

**AGENCY:** Nuclear Regulatory Commission.

**SUMMARY:** Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC) has received, by letter dated March 2, 1999, an application from International Uranium (USA) Corporation ("IUSA") to amend Source Material License No. SUA-1358 to allow for the receipt and processing of uranium-bearing material removed from various sites in the St. Louis, Missouri area. These sites are being remediated by the U.S. Army Corps of Engineers in accordance with its responsibilities under the Formerly-Utilized Sites Remedial Action Program (FUSRAP). Under the proposed license amendment, IUSA would process material shipped from the St. Louis area in its White Mesa uranium mill in Blanding, Utah, to recover usable uranium. IUSA would dispose of the tailings, or byproducts of this process in the existing 11(e)2 mill tailings pile at the site. This FUSRAP material from the St. Louis sites is considered to be an "alternate feed" material, i.e., an input material for uranium extraction that is different from natural ores containing uranium. Prior to the issuance of the amendment, NRC will have made findings required by the Atomic Energy Act of 1954, as amended, and NRC's regulations.
