

currently due no later than May 3, 1999. Due to the complexity of the issues and the fact that certain subsidy allegations are being examined for the first time, the Department has determined that it is not practicable to complete this review within the time limits mandated by the Act (19 U.S.C. 1675 (a)(3)(A)).

Postponement of Preliminary Results of Review

Section 751(a)(3)(A) of the Act requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order/finding for which a review is requested and a final determination within 120 days after the date on which the preliminary determination is published. However, if it is not practicable to complete the review within the time period, section 751(a)(3)(A) allows the Department to extend this time period to a maximum of 365 days and 180 days, respectively.

We determine that it is not practicable to complete the preliminary results of this review within the original time frame. See Memorandum from Bernard Carreau to Robert S. LaRussa, "Extension of Preliminary Results: Certain Cut-to-Length Carbon Steel Plate from Mexico," dated April 13, 1999.

The deadline for issuing the preliminary results of this review is now no later than August 31, 1999, which is the full amount of time the Department can extend the preliminary results under section 751(a)(3)(A) of the Act. The deadline for issuing the final results of this review will be no later than 120 days from the publication of the preliminary results.

Dated: April 13, 1999.

Bernard Carreau,

Deputy Assistant Secretary for Import Administration, Group II.
