

for management of the land and resources of the Payette National Forest, including this project area. The project would be consistent with the Plan as amended by the Inland Native Fish Strategy (INFISH) of 1995.

Public participation will be important at several points during the analysis, particularly during scoping of issues and review of the DEIS. The first opportunity in the process is scoping. This notice begins the 30-day scoping period.

The scoping process includes:

1. Identifying potential issues.
2. Identifying issues to be analyzed in detail.

3. Eliminating insignificant issues or those covered by a relevant previous environmental analysis.

4. Determining potential cooperating agencies and responsibilities.

The Forest Service has consulted with the U.S. Fish and Wildlife Service, Department of Interior, on potential impacts to threatened and endangered species.

Preliminary issues include effects on soils, water, fish, timber, vegetation, wildlife, fire management, heritage resources, recreation, visual quality, and socio-economics.

The next major opportunity for public input is with the DEIS. The DEIS will analyze a range of alternatives to the proposed action, including the no-action alternative. The Forest expects to file the DEIS with the Environmental Protection Agency (EPA) for public review in July 1999. EPA will then publish a notice of availability of the DEIS in the **Federal Register**. The Forest Service invites public comments at that time.

The comment period on the DEIS will be 45 days from the date the EPA publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of any DEIS must structure their participation in the environmental review of the proposal so that it is meaningful and alerts the agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, courts may waive or dismiss environmental objections that could be raised at the DEIS stage but that are not raised until after completion of the final environmental impact statement (FEIS). *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of

these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when the agency can meaningfully consider them and respond to them in the FEIS.

To assist the Forest Service in identifying and considering issues raised by the proposed action, comments on the DEIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the DEIS. Comments may also address the adequacy of the DEIS or the merits of the alternatives it analyzes. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

The Forest Service will respond to comments received in the FEIS (40 CFR 1503.4). The responsible official will consider the comments, responses, environmental consequences disclosed in the FEIS, and applicable laws, regulations, and policies in making the final decision regarding this proposal. The responsible official will document the decision and reasons for it in the Record of Decision. That decision will be subject to appeal under 36 CFR 215.

David F. Alexander, Forest Supervisor of the Payette National Forest, is the responsible official for this EIS.
