[Project No. 2146-083]

Alabama Power Company; Notice of Availability of Environmental Assessment

May 4, 1999.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) regulations, the Office of Hydropower Licensing has reviewed the application for the proposed Amendment of License for the Coosa River Project, located in Talladega County, Alabama, and has prepared a draft and, subsequently, a

final Environmental Assessment (EA) for the proposed action.

In the final EA, the Commission's staff analyzed the potential environmental impacts of The Utilities Board of the City of Sylacauga, Alabama (Board) constructing and operating a raw water intake and pumping station on Lay Reservoir. The staff concluded that, given the mitigative measures proposed by the Board, approval of the action would not constitute a major federal action significantly affecting the quality of the human environment.

The EA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the EA can be viewed at the Commission's Public Reference Room, Room 2A, 888 First Street, NE, Washington, DC 20426, or by calling (202) 208-1371. The EA may also be viewed on the Web at www.ferc.fed.us/online/rims.htm. Call (202) 208-2222 for assistance.
