#### Advisory Circular (AC) No. 00-59, Integrating Helicopter and Tiltrotor Assets into Disaster Relief Planning

**AGENCY:** Federal Aviation Administration, DOT.

**ACTION:** Notice of availability of an advisory circular.

**SUMMARY:** This notice announces the availability of an AC that provides general guidance on integrating helicopters and tiltrotor aircraft into disaster relief planning efforts. This document is advisory in nature and is intended to provide a planning tool to assist State and local emergency planners. These guidelines are based on accepted planning concepts and "lessons learned" through the study of disaster case histories where helicopters were used.

During the last four decades, helicopters have proven their value to communities when disasters strike. And yet, all too often, people simply assume that these aircraft will arrive when needed. However, without careful planning, helicopters and tiltrotors may not appear, or if they do, they may not be used to their best advantage. This AC identifies issues that need to be addressed, provides general guidance on how they may be addressed, and lists various contacts and references that may be helpful during the planning and execution of disaster relief plans.
