[Docket No. EA-207]

Application To Export Electric Energy; PDI New England, Inc.**AGENCY:** Office of Fossil Energy, DOE.**ACTION:** Notice of application.

SUMMARY: PDI New England, Inc. (PDI) has applied for authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests or requests to intervene must be submitted on or before May 26, 1999.

ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Coal & Power Im/Ex (FE-27), Office of Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, SW, Washington, DC 20585-0350 (FAX 202-287-5736).

FOR FURTHER INFORMATION CONTACT: Steven Mintz (Program Office) 202-586-9506 or Michael Skinker (Program Attorney) 202-586-6667.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. § 824a(e)).

On March 29, 1999, the Office of Fossil Energy (FE) of the Department of Energy (DOE) received an application from PDI for authorization to export electric energy to Canada. PDI is a wholly-owned subsidiary of WPS Power Development, Inc. which, in turn, is a wholly-owned indirect subsidiary of WPS Resources Corporation. WPS Resources Corporation is an exempt public utility holding company headquartered in Green Bay, Wisconsin.

PDI and its affiliate, PDI Canada, Inc., is in the process of acquiring certain generating assets that are being divested from Maine Public Service Company (MPS). As part of the forthcoming transaction with MPS, PDI Canada, Inc., will be providing energy to a wholesale customer in the Province of New Brunswick, Canada. PDI may be called upon from time to time to provide backup power to its affiliate, PDI Canada, Inc., to service the contract. Providing such backup power would constitute an export of electricity from the United States to Canada.

The energy to be exported by PDI will be surplus generation produced from the MPS generating assets that will soon be acquired by PDI and PDI Canada, Inc. PDI intends to export to Canada using the existing international transmission facilities owned by MPS. The construction of each of the international transmission facilities to be utilized by PDI, as more fully described in the application, has previously been authorized by a Presidential permit issued pursuant to Executive Order 10485, as amended.

Procedural Matters

Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the FERC's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with the DOE on or before the date listed above.

Comments on the PDI application to export electric energy to Canada should be clearly marked with Docket EA-207. Additional copies are to be filed directly with Gerald L. Mroczkowski, Vice President, PDI New England, Inc., 677 Baeten Road, Green Bay, Wisconsin 54304 AND Bradley D. Jackson, Foley &

Lardner, 150 East Gilman Street, Madison, Wisconsin 53703-1441.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to the National Environmental Policy Act of 1969 and a determination is made by the DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by accessing the Fossil Energy Home Page at <http://www.fe.doe.gov>. Upon reaching the Fossil Energy Home page, select "Regulatory," then "Electricity," and then "Pending Proceedings" from the options menus.

DOE has granted the applicant's request for an expedited notice and comment period of fifteen (15) days so that PDI might be able to export electric energy to Canada, if called upon, by June 8, 1999.

Issued in Washington, DC, on May 5, 1999.

Anthony J. Como,

Manager, Electric Power Regulation, Office of Coal & Power Im/Ex, Office of Coal & Power Systems, Office of Fossil Energy.
