

Thrifty Food Plan (TFP) and Allotments

As provided for in section 3(o) of the Act, the TFP is a plan for the consumption of foods of different types (food groups) that a household might use to provide nutritious meals and snacks for household members. The plan reflects a diet required to feed a family of four persons consisting of a man and a woman aged 20 to 50, a child 6 to 8 and a child 9 to 11. The cost of the TFP is adjusted monthly to reflect changes in the costs of the food groups.

The TFP is also the basis for establishing food stamp allotments. *Allotment* is defined in section 3(a) of the Act as "the total value of coupons a household is authorized to receive during each month." Food stamp allotments are adjusted periodically to reflect the changes in food cost levels indicated in the changing amounts of the TFP. Prior to the amendment of section 3(o) of the Act by section 804 of Pub. L. 104-193, the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, allotment amounts were established on each October 1 at 103% of the cost of the TFP in the previous June. Amended section 3(o)(4) of the Act now provides that the TFP will be adjusted each October 1 to reflect the exact cost, or 100%, of the TFP for the previous June, rounding the results to the nearest lower dollar increment for each household size, except that on October 1, 1996, the TFP was not to have been reduced below the amounts in effect on September 30, 1996.

To obtain the maximum food stamp allotment for each household size for the period October 1, 1998, to September 30, 1999, June 1998 TFP costs for the above described four-person household were divided by four, multiplied by the appropriate household size and economy of scale factor, in accordance with section 3(o)(1) of the Act, and the final result was rounded down to the nearest dollar. The maximum benefit, or allotment, is paid to households with no net income. For a household with income, the household's allotment is determined by reducing the maximum allotment for the household's size by 30 percent of the individual household's net income in accordance with section 8(a) of the Act, 7 U.S.C. 2017(a). The following table shows the current allotments for the 48 States and the District of Columbia.
