## NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

### Cooperative Agreement for Arts Projects on Millennium Trails

**AGENCY:** National Endowment for the Arts.

**ACTION:** Notification of availability.

**SUMMARY:** The National Endowment for the Arts is requesting proposals leading to the award of a Cooperative Agreement to conduct a project which will support 52 high quality,

community-centered arts projects along the 52 Millennium Legacy Trails that the US Department of Transportation will designate in each of the 50 states, Puerto Rico, and the District of Columbia. Available funding is \$520,000, which must be matched on a one-to-one basis. Responsibilities of the recipient of the Cooperative Agreement will include: preparation and distribution of application guidelines; overseeing the review and selection process; providing guidance and structure to each project; as well as monitoring all stages of each project. Eligibility to apply is limited to non-profit organizations [501(c)(3), college or university, or unit of state and local government]. Applicants for this Cooperative Agreements must have previous experience in working with relevant organizations and agencies, such as national cultural service organizations, national trails organizations, state/local arts agencies, state departments of transportation, and state and local trails organizations. Those interested in receiving the solicitation package should reference Program Solicitation PS 99-04 in their written request and include two (2) self-addressed labels. Verbal requests for the Solicitation will not be honored.

**DATES:** Program Solicitation PS 99-04 is scheduled for release approximately June 4, 1999 with proposals due on July 12, 1999.

**ADDRESSES:** Requests for the Solicitation should be addressed to the National Endowment for the Arts, Grants & Contracts Office, Room 618, 1100 Pennsylvania Ave., NW, Washington, DC 20506.

**FOR FURTHER INFORMATION CONTACT:** William Hummel, Grants & Contracts Office, National Endowment for the Arts, Room 618, 1100 Pennsylvania Ave., NW, Washington, DC 20506 (202/682-5482).

**William I. Hummel,**

*Coordinator, Cooperative Agreements and Contracts.*

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-250 and 50-251]

### Florida Power and Light Company (Turkey Point Units 3 and 4); Revised Exemption

#### I

Florida Power and Light Company (the licensee or FPL) is the holder of

Facility Operating Licenses Nos. DPR-31 and DPR-41, which authorize operation of Turkey Point Units 3 and 4 (the facility), respectively, at a steady-state reactor power level not in excess of 2300 megawatts thermal. The facility is a pressurized-water reactor located at the licensee's site in Dade County, Florida. The licenses require among other things that the facility comply with all rules, regulations, and orders of the U.S. Nuclear Regulatory Commission (the Commission or NRC) now or hereafter in effect.

#### II

By letter dated December 22, 1998, the NRC issued an exemption from certain requirements of 10 CFR Part 50, Appendix R, Section III.G.2.a, and a supporting safety evaluation (SE), for certain fire zones in the turbine building at Turkey Point Plant, Units 3 and 4. By letter dated March 8, 1999, FPL provided the NRC staff with its review comments regarding the issued exemption and SE.

The licensee's comments consisted primarily of clarifications, editorial corrections, and minor inconsistencies between FPL's submittals and the issued exemption and SE. Based on its review, the NRC staff has determined that these comments, which do not cause the conclusions made previously in the exemption and SE that were issued on December 22, 1998, to be altered, should be incorporated appropriately. Therefore, the staff is issuing this revised exemption and a revised SE to reflect FPL's comments. This revised exemption and the revised SE supersede those issued on December 22, 1998.

In exemptions dated March 27, 1984, and August 12, 1987, concerning the requirements of Section III.G, Appendix R to 10 CFR Part 50, the NRC staff approved the use of 1-hour-rated fire barriers in lieu of 3-hour-rated fire barriers in certain outdoor areas at Turkey Point Units 3 and 4. In addition, the staff found that, for certain outdoor areas not protected by automatic fire detection and suppression systems, separation of cables and equipment and associated circuits of redundant trains by a horizontal distance of 20 feet free of intervening combustibles provided an acceptable level of fire safety.

On the basis of the results of the industry's Thermo-Lag fire endurance testing program, the licensee concluded that the outdoor Thermo-Lag fire barrier designs cannot achieve a 1-hour fire-resistive rating but can achieve a 30-minute fire-resistive rating when exposed to a test fire that follows the American Society for Testing and Materials Standard E-119 time-
