[Docket No. GT99-27-000]

Williston Basin Interstate Pipeline Company; Notice of Tariff Filing

May 11, 1999.

Take notice that on May 3, 1999, Williston Basin Interstate Pipeline Company (Williston Basin), 1250 West Century Avenue, Bismarck, North Dakota 58501, tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following revised tariff sheets to become effective April 30, 1999:

Second Revised Volume No. 1

Fifth Revised Sheet No. 5
Fifth Revised Sheet No. 6
Third Revised Sheet No. 6A
Second Revised Sheet No. 7
Fourth Revised Sheet No. 8
Fifth Revised Sheet No. 9
Fourth Revised Sheet No. 10

Williston Basin states that the revised tariff sheets are being filed simply to update its System Maps with the most recent information available.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

[Docket No. MT99-12-000]

Williston Basin Interstate Pipeline Company; Notice of Tariff Filing

May 11, 1999.

Take notice that on May 3, 1999, Williston Basin Interstate Pipeline Company (Williston Basin), 1250 West Century Avenue, Bismarck, North Dakota 58501, tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following revised tariff sheets to become effective April 1, 1999:

Second Revised Volume No. 1

Sixth Revised Sheet No.1
Eleventh Revised Sheet No.187
1st Rev Fifth Revised Sheet No.188 (Effective April 1, 1999)
Sub Sixth Revised Sheet No.188 (Effective April 20, 1999)
First Revised Sheet No.232D
Second Revised Sheet No.233
Fifth Revised Sheet No.234
First Revised Sheet No.239
Sheet Nos. 240-242
Third Revised Sheet No.243

First Revised Volume No. 1-A

Title Sheet

Williston Basin states that on April 1, 1999, it transferred all company-owned production reserves, appurtenant production-related facilities and associated services of WBI Production, its merchant division, to WBI Production, Inc., a non-jurisdictional, wholly-owned subsidiary of WBI Holdings, Inc., Williston Basin's parent. As of that date, WBI Production no longer exists as a merchant sales division of Williston Basin. As a result of the transfer of production reserves, related facilities and associated services, WBI Production, Inc., is an affiliate of Williston Basin but not a "marketing affiliate", as defined within the context of FERC Order Nos. 566, et seq.

Williston Basin also states that it filed the instant tariff sheets to reflect the cancellation, in its entirety, of its FERC Gas Tariff, First Revised Volume No. 1-A, and associated services of Williston Basin Interstate Pipeline Company, d/b/a WBI Production.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance

with section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

[Docket No. RP99-271-001]

Williams Gas Pipelines Central, Inc.; Notice of Proposed Changes in FERC Gas Tariff

May 11, 1999.

Take notice that on May 5, 1999, Williams Gas Pipelines Central, Inc. (Williams), tendered for filing to become part of its FERC Gas Tariff, Original Volume No. 1, the following tariff sheets, with the proposed effective date of May 1, 1999:

Substitute Seventh Revised Sheet No. 6
Substitute Tenth Revised Sheet No. 6A

Williams states that it submitted its second quarter 1999 report of GSR costs on March 31, 1999, pursuant to Article 14 of the General Terms and Conditions of its FERC Gas Tariff, Original Volume No. 1. The original tariff sheets filed on March 31, 1999, in this docket contained surcharges which were filed March 1, 1999, in Docket No. RP99-257. The tariff sheets filed in Docket No. RP99-257 were suspended by order issued March 31, 1999. The tendered tariff sheets reflected the omission of the suspended surcharges.

Williams states that a copy of its filing was served on all participants listed on the service lists maintained by the Commission in the dockets referenced above and on all of Williams' jurisdictional customers and interested state commission.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and

Regulations. All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

ENVIRONMENTAL PROTECTION AGENCY

[AD-FRL-6343-6]

RIN 2060-A152

National Emission Standards for Hazardous Air Pollutants: Revision of Schedule for Standards Under Section 112 of the Clean Air Act

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of revisions to promulgation schedule for standards.

SUMMARY: This notice publishes revisions to the schedule for the promulgation of standards for sources of hazardous air pollutants (HAP). Required under section 112(c) and (e) of the Clean Air Act (CAA), the source category list and the schedule for standards constitute a significant part of the EPA's agenda for regulating stationary sources of air toxic emissions.

The schedule for standards, required under CAA section 112(e), organized the source categories into groups of four separate timeframes with promulgation deadlines of November 15, 1992; November 15, 1994; November 15, 1997; and November 15, 2000. The EPA refers to these groups of four separate timeframes as 2-year, 4-year, 7-year, and 10-year bins, respectively. Today's notice announces a scheduling change for two source categories from the 7-year bin to the 10-year bin and two source categories from the 10-year bin to the 7-year bin. In addition, this notice corrects the schedule for a source category recently added to the list.

EFFECTIVE DATE: May 17, 1999.

ADDRESSES: Docket No. A-90-49, containing supporting information used in development of this notice, is available for public inspection and

copying between 8 a.m. and 5:30 p.m., Monday through Friday, excluding legal holidays. The docket is located in the EPA's Air and Radiation Docket and Information Center, Waterside Mall, Room M-1500, 401 M Street, SW, Washington, DC 20460, or by calling (202) 260-7548. A reasonable fee may be charged for copying docket materials.

FOR FURTHER INFORMATION CONTACT: For information concerning this notice, contact Ms. Maria Noell, Emissions Standards Division (MD-13), U.S. EPA, Office of Air Quality Planning and Standards, Research Triangle Park, North Carolina 27711, telephone number (919) 541-5607, facsimile number (919) 541-3470, electronic mail address "noell.maria@epa.gov".

SUPPLEMENTARY INFORMATION:

I. What Is the History of the Source Category List and Schedule?

The CAA amendments of 1990 (Public Law 101-549) require, under section 112, that the Agency list categories of sources emitting HAP and promulgate national emission standards for HAP (NESHAP) in order to control, reduce, or otherwise limit the emissions of HAP from such categories of major and area sources. Pursuant to the various specific listing requirements in section 112(c), we published on July 16, 1992 (57 FR 31576), a list of 174 categories of major and area sources—referred to as the "initial list"—for which we would develop emission standards. Following this listing, pursuant to requirements in section 112(e), on December 3, 1993 (58 FR 63941), we published a schedule for the promulgation of emission standards for each of the 174 listed source categories.

When we publish notices that affect actions relating to individual source categories, it is important to reflect the resultant changes on the list and schedule. On June 4, 1996 (61 FR 28197), we published a notice that referenced all previous listing and schedule changes and consolidated those actions, along with several new actions, into a revised source category list and schedule. We published a subsequent notice on February 12, 1998 (63 FR 7155), which again updated the list and schedule. You should read these previous notices for information relating to development of the initial list and schedule.

II. Why Is EPA Issuing This Notice?

This notice announces scheduling changes for promulgating standards. This action moves two source categories from the 7-year bin to the 10-year bin:

- Petroleum Refineries—Catalytic Cracking (Fluid and Other) Units,

Catalytic Reforming Units, and Sulfur Plant Units; and

- Primary Copper Smelting.

Also, to ensure that we still meet the CAA section 112(e)(1) scheduling requirements, we are countering these scheduling changes by moving two source categories forward to the 7-year bin:

- Hydrogen Fluoride Production; and
- Butadiene-Furfural Cotrimer (R-11) Production.

Additionally, this notice announces one other scheduling change. We are correcting the promulgation deadline for the Natural Gas Transmission and Storage source category, which we added to the original source category list, from November 15, 1997 to November 15, 2000.

III. What Revisions Is EPA Making to the Source Category Schedule?

The following sections describe the new revisions to the source category schedule since the February 12, 1998 publication.

A. Corrections to Previous Notice

The Administrator may at any time add categories and subcategories of HAP to the original source category list based on the same criteria used to develop the original list. Section 112(c)(5) states that the Administrator shall promulgate standards to regulate HAP emissions from these added categories and subcategories within 10 years after enactment of the CAA amendments of 1990 (i.e., by November 15, 2000, the 10-year bin date) or within 2 years after the date on which the category or subcategory was listed, whichever is later.

This **Federal Register** notice announces one scheduling change to correct the regulatory promulgation date for the Natural Gas Transmission and Storage source category. In our last notice regarding changes to the source category list, on February 12, 1998, we incorrectly indicated that this category was a subset of the Oil and Natural Gas Production source category. Consequently, we did not consider it to be subject to the scheduling requirements of section 112(c)(5), and we placed it in the same regulatory bin as the Oil and Natural Gas Production source category (i.e., the 7-year bin). However, in a February 6, 1998 **Federal Register** notice of proposed maximum achievable control technology (MACT) standards for the Oil and Natural Gas Production and the Natural Gas Transmission and Storage source categories (63 FR 6287), we had amended the source category list to add Natural Gas Transmission and Storage
