Responsible Official: Jack Blackwell, Intermountain Regional Forester at 324 25th Street, Ogden, UT 84401.

SUPPLEMENTARY INFORMATION: As described in the Notice of Intent published on April 24, 1998 (Volume 63, Number 79, pages 20369-20375), the Payette and Boise National Forests would proceed with preparation of an environmental impact statement for revision of their Land and Resources Management Plans (forest plans) and the Sawtooth National Forest would prepare a significant amendment to its forest plan. Through the analysis of the management situation, the Sawtooth Forest did identify several areas where current management direction needs to change. Therefore, analysis efforts on the Sawtooth will continue to parallel analysis efforts on the Boise and Payette, with the intent to revise the Sawtooth Forest Plan in accordance with 36 CFR 219.10(g).

The Appropriations Act of 1999, H.R. 4328, signed into law October 21, 1998, states that national forests within the Interior Columbia Basin Ecosystem study areas may proceed to complete revision in accordance with the current planning regulations. The Sawtooth, Boise and Payette National Forests are all within the Interior Columbia Basin Ecosystem. Notice is hereby given that the Sawtooth National Forest, in conjunction with the Boise and Payette National Forests, has begun an environmental analysis and decision-making process and will prepare an environmental impact statement for the proposed action to revise, rather than amend, the Sawtooth Forest Plan.

Dated: May 5, 1999.

Jack A. Blackwell,

Regional Forester.
