

15A(b)(11),⁶ and Section 11A of the Act.⁷ Section 15A(b)(6) requires that the rules of a registered national securities association be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect that mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. These rules may not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers. Section 15A(b)(11) requires that the rules of a registered national securities association be designed to produce fair and informative quotations, prevent fictitious or misleading quotations and to promote orderly procedures for collecting, distributing, and publishing quotations. Section 11A(a)(1)(C) provides that it is in the public interest and appropriate for the protection of investors and the maintenance of fair and orderly markets to assure: (1) economically efficient execution of securities transactions; (2) fair competition among brokers and dealers; (3) the availability to brokers, dealers and investors of information with respect to quotations and transactions in securities; (4) the practicability of brokers executing investors' orders in the best market; and (5) an opportunity for investors' orders to be executed without the participation of a dealer.

Nasdaq believes that the proposed rule promotes the objectives of Sections 15A(b)(6) and (11) and Section 11A of the Act by producing fair and informative quotations and the economically efficient execution of securities transactions. Nasdaq believes that the proposed rule will encourage market makers to display quotes at their true and intended size, thereby providing increased transparency, fewer transactions and resultant expenses, and a more fair and efficient marketplace, benefiting market participants and public customers.
