

departmental elements determined that maintaining the program at the Mound Site for the long-term was reasonable and that the Department could continue to ensure high levels of health and safety, materials protection, and other program requirements. These reviews, along with public comments received during the EIS scoping process, have effectively negated the need for the proposed action. Therefore, no EIS is required, and DOE hereby withdraws its notice of intent to prepare an EIS.

Issued in Washington, D.C., this 11th day of May 1999.

### Federal Energy Regulatory Commission

#### The City of Anaheim, California Public Utilities Department; Notice of Filing

[Docket No. EL99-63-000]

May 13, 1999.

Take notice that on January 21, 1999, The City of Anaheim Public Utilities Department (Anaheim) filed a request for waiver from submitting FERC Form No. 715, "Annual Transmission Planning and Evaluation Report". Under the Commission's Rules, entities that do not use power flow analyses in their transmission planning can be granted a waiver from filing FERC Form No. 715. Anaheim states that the transmission facilities that they use to deliver its energy are all operated by other entities. For this reason, Anaheim requests a waiver from submitting FERC Form No. 715.

Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions and protests should be filed on or before June 4, 1999. Protests will be considered by the Commission to determine the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This

filing may also be viewed on the Internet at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

### Federal Energy Regulatory Commission

[Docket No. EL99-64-000]

#### The City of Riverside, California; Notice of Filing

May 13, 1999.

Take notice that on April 29, 1999, The City of Riverside, California (Riverside) filed a request for waiver from submitting FERC Form No. 715, "Annual Transmission Planning and Evaluation Report". Under the Commission's Rules, entities that do not use power flow analyses in their transmission planning can be granted a waiver from filing FERC Form No. 715. Riverside states that it is in Southern California Edison's (SCE) control area and relies on SCE to perform the transmission planning for the area. The request states that Riverside does not have the means or the data to comply with the FERC's reporting requirements. Therefore, Riverside is requesting waiver of FERC's Form No. 715 for this year and subsequent years, as long as Riverside does not perform transmission planning, or use power flow analyses in its planning.

Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions and protests should be filed on or before June 4, 1999. Protests will be considered by the Commission to determine the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.
