BILLING CODE 4310-70-U

DEPARTMENT OF THE INTERIOR**Bureau of Reclamation**

**Intent to Solicit Comments on the
Development of Surplus Criteria for
Management of the Colorado River and
to Initiate National Environmental
Policy Act (NEPA) Process**

AGENCY: Bureau of Reclamation,
Interior.

ACTION: Notice to solicit comments and
initiation of NEPA process.

SUMMARY: The Department of the
Interior, Bureau of Reclamation
(“Reclamation”), is considering
development of specific criteria that
will identify those circumstances under
which the Secretary of the Interior
(“Secretary”) may make Colorado River
water available for delivery to the States
of Arizona, California, and Nevada
(Lower Division States or Lower Basin)
in excess of the 7,500,000 acre-foot
Lower Basin apportionment.

DATES: We must receive all comments at
the address below on or before June 30,
1999. In addition to accepting written
comments, we will hold public scoping
meetings prior to the closing of the
comment period. We will hold the
public scoping meetings to allow the
public to comment on the need for, and
content of, specific surplus criteria as
part of the National Environmental
Policy Act (NEPA) process initiated by
this notice. We will notify you of the
dates, times, and places for these
meetings through the **Federal Register**,
media outlets, and to all respondents to
this notice.

ADDRESSES: You may submit comments
to the Regional Director, Lower
Colorado Region, Attention: Jayne
Harkins, Bureau of Reclamation, P.O.
Box 61470, Boulder City, Nevada
89006-1470.

SUPPLEMENTARY INFORMATION: The
Secretary, pursuant to the Boulder
Canyon Project Act of December 28,
1928, and the Supreme Court opinion
rendered June 3, 1963, and decree
entered March 9, 1964 (Decree), in the
case of *Arizona v. California, et al.*, is
vested with the responsibility to manage
the mainstream waters of the Colorado
River in the Lower Basin. As the agency

that has been designated to act in the Secretary's behalf with respect to these matters, Reclamation intends to scope and, if appropriate, to develop and implement specific criteria under which "surplus" determinations will be made for the Lower Basin States.

Currently, each year, the Secretary establishes an Annual Operating Plan (AOP) for the Colorado River Reservoirs. The AOP describes how Reclamation will manage the reservoirs over a twelve month period, consistent with the "Criteria for Coordinated Long-Range Operation of the Colorado River Reservoirs Pursuant to the Colorado River Basin Project Act of September 30, 1968" (Long-Range Operating Criteria) and the Decree. Reclamation consults annually with the Colorado River Basin States, Indian Tribes, and other interested parties in the development of the AOP. Further, as part of the AOP process, the Secretary makes annual determinations under the Long-Range Operating Criteria, regarding the availability of Colorado River water for deliveries to the Lower Division States. To meet the consultation requirements of federal law, Reclamation also consults with the Colorado River Basin States, Indian Tribes, and other interested parties during the five-year periodic reviews of the Long-Range Operating Criteria.

In recent years, demand for Colorado River water in Arizona, California, and Nevada has exceeded the Lower Basin's 7,500,000 acre-foot basic apportionment. As a result, criteria for determining the availability of surplus has become a matter of increased importance. Under these circumstances, the Secretary believes that it may be prudent to develop specific criteria that will guide the Secretary's annual decision regarding the quantity of Colorado River water available for delivery to the Lower Basin States. Such surplus criteria would provide more predictability to States and water users. Reclamation anticipates however, that surplus criteria will be subject to change based upon new circumstances, and that such criteria may be interim in nature.

Reclamation may implement the surplus criteria by revising the Long-Range Operating Criteria set forth in Article III(3) or by developing interim implementing criteria pursuant to Article III(3) of the Long-Range Operating Criteria. Proceeding under Article III(3) may be particularly appropriate because Section 602 of the Colorado River Basin Project Act, as amended, requires that any modification to the Long-Range Operating Criteria be made "only after correspondence with the Governors of the seven Colorado

River Basin States and appropriate consultation with such state representatives as each Governor may designate." This statutory reference to the special role of the Basin States in matters relating to the Long-Range Operating Criteria underscores the importance of working closely with the states in developing surplus criteria. Reclamation intends to appropriately coordinate the development of surplus criteria with the Basin States, in accordance with this mandate. In that regard, Reclamation recognizes that efforts are currently underway to reduce California's reliance on surplus deliveries.

Reclamation will take account of progress in that effort, or lack thereof, in the decision-making process regarding specific surplus criteria. Reclamation also intends to make full use of technical information and approaches that have been developed through ongoing discussions with the Basin States. This information can be obtained through the Reclamation contact listed above.

As part of the process initiated by this notice, Reclamation will analyze the effects of specific surplus criteria on potential future shortage determinations on the Colorado River. The criteria would be consistent with relevant Federal law, and would recognize relevant provisions of the Law of the River, which has evolved out of a combination of Federal and State statutes, interstate compacts, court decisions and decrees, an international treaty, contracts with the Secretary, operating criteria, regulations, and administrative decisions.

Reclamation will utilize a public process pursuant to NEPA during the development of the surplus criteria. By this notice, Reclamation invites all interested parties, including the Colorado River Basin States, Indian Tribes, water users, members of the general public, organizations, and agencies to present written comments concerning the format for the criteria, the scope of specific surplus criteria, and the issues and alternatives that they suggest should be analyzed. As noted above, Reclamation will integrate the consultation requirements of Section 602 of the Colorado River Basin Project Act, as amended, into the NEPA process initiated by this notice. As part of this review, Reclamation will consult with state representatives of each of the Governors of the seven Colorado River Basin States, Indian Tribes, members of the general public, representatives of academic and scientific communities, environmental organizations, the recreation industry and contractors for

the purchase of Federal power produced at Glen Canyon Dam.

Dated: May 13, 1999.

David J. Hayes,

Acting Deputy Secretary.

BILLING CODE 4310-94-P

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Overseas Private Investment Corporation

Submission for OMB Review; Comment Request

AGENCY: Overseas Private Investment Corporation, IDCA.

ACTION: Request for comments.

SUMMARY: Under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35), Agencies are required to publish a Notice in the **Federal Register** notifying the public that the Agency has prepared an information collection request for OMB review and approval and has requested public review and comment on the submission. OPIC published its first Federal Register Notice on this information collection request on March 5, 1999, in 64 FR #43, p. 10721, at which time a 60-calendar day comment period was announced. This comment period ended May 5, 1999. No comments were received in response to this Notice.

This information collection submission has now been submitted to OMB for review. Comments are again being solicited on the need for the information, its practical utility, the accuracy of the Agency's burden estimate, and on ways to minimize the reporting burden, including automated collection techniques and uses of other forms of technology. The proposed form under review is summarized below.

DATES: Comments must be received on or before June 17, 1999.

ADDRESSES: Copies of the subject form and the request for review submitted to OMB may be obtained from the Agency Submitting Officer. Comments on the form should be submitted to the OMB Reviewer.

FOR FURTHER INFORMATION CONTACT:

OPIC Agency Submitting Officer: Carol Brock, Records Manager, Overseas Private Investment Corporation, 1100 New York Avenue, N.W., Washington, D.C. 20527; 202 336-8563.

OMB Reviewer: Jeff Hill, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Docket
