#### Notice of Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance and NAFTA Transitional Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, as amended, the Department of Labor herein presents summaries of determinations regarding eligibility to apply for trade adjustment assistance for workers (TA-W) issued during the period of April and May, 1999.

In order for an affirmative determination to be made and a certification of eligibility to apply for worker adjustment assistance to be issued, each of the group eligibility requirements of Section 222 of the Act must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated,

#### **FirstMiss Steel, Inc. Hollsopple, Pennsylvania; Notice of Negative Determination on Reconsideration**

On April 5, 1999, the Department issued an Affirmative Determination Regarding Application for Reconsideration for the workers and former workers of the subject firm. The petitioner presented evidence that the Department's survey of customers of FirstMiss Steel, Inc. was incomplete.

The notice was published in the **Federal Register** on April 27, 1999 (64 FR 22650).

The Department initially denied TAA to workers of FirstMiss Steel, Inc. producing steel products because the "contributed importantly" group eligibility requirement of Section 222(3) of the Trade Act of 1974, as amended, was not met. The investigation revealed that the majority of the customers responding to a customer survey reported no increase in import purchases of steel ingot and bars during the relevant time period (1997 to 1998).

The petitioners requesting reconsideration also cited that stainless steel in 1998 is one of the products being dumped by foreign countries into the U.S. market place at levels significantly above 1997 levels. During the course of a TAA petition investigation to determine worker group eligibility, the Department does not conduct an industry study, but limits its investigation to the impact of articles like or directly competitive with the products produced and sold by the workers' firm.

On reconsideration, the Department conducted further survey of FirstMiss Steel's major declining customers. The majority of respondents reported no increase in reliance on import purchases of steel ingots, bars and billets while decreasing purchases from the subject firm.

#### *Conclusion*

After reconsideration, I affirm the original notice of negative determination of eligibility to apply for worker adjustment assistance for workers and former workers of FirstMiss Steel, Inc., Hollsopple, Pennsylvania.

Signed at Washington, DC this 10th day of May 1999.
