**SUPPLEMENTARY INFORMATION:** Section 2119 (7 U.S.C. 6518) of the Organic Foods Production Act of 1990 (OFPA), as amended (7 U.S.C. 6501 *et seq.*) requires the establishment of the NOSB. The purpose of the NOSB is to assist in the development of standards for substances to be used in organic production and to advise the Secretary on any other aspects of the implementation of OFPA. The NOSB met for the first time in Washington, DC, in March 1992 and currently has seven committees working on various aspects of the program. The committees are: Crops Standards; Processing; Labeling and Packaging; Livestock Standards; Accreditation; Materials; and, International Issues.

In August 1994, NOSB provided its initial recommendations for the National Organic Program (NOP) to the Secretary of Agriculture and since that time it has submitted 30 addenda to the recommendations and reviewed more than 170 substances for inclusion on the National List of Allowed and Prohibited

Substances. The last meeting of the NOSB was held February 9–11, 1999, in Washington, DC.

The Department of Agriculture (USDA) published its proposed rule for the NOP in the **Federal Register** on December 16, 1997 (62 FR 65849). A notice extending the comment period on the proposed rule was published in the **Federal Register** on February 9, 1998 (63 FR 6498–6499). The comment period was extended until April 30, 1998. On October 28, 1998, three issue papers for which public comment was requested by USDA were published in the **Federal Register** (63 FR 57624–57626). These papers addressed certain issues raised during the NOP's proposed rule's comment period. The issue papers were: Issue Paper 1—Livestock Confinement in Organic Production Systems; Issue Paper 2—The Use of Antibiotics and Parasiticides in Organic Livestock Production; and Issue Paper 3—Termination of Certification by Private Certifiers. Comments received on these papers are being considered during the development of a revised NOP proposed rule. The comment period for the issue papers closed December 14, 1998.

**PURPOSE AND AGENDA:** The principal purpose of this meeting is to provide an opportunity for NOSB to receive committee reports from its standing and ad hoc committees and address issues that arose from the February 1999 NOSB meeting. These issues include, wild caught salmon, the NOP recommendations on manure use in vegetable production, a mock materials review, and enforcement criteria. At the meeting the Agency will give a status report on the proposed rule, report on the 27th Codex Committee meeting on Food Labeling, and report on other trade related issues. Copies of the NOSB meeting agenda can be requested from Karen Thomas, Room 2510-South Building, U.S. Department of Agriculture, AMS, Transportation and Marketing, National Organic Program, P.O. Box 96456, Washington, DC 20090–6456, or by phone at (202) 690–3655, or by accessing the NOP website at <http://www.ams.usda.gov/nop>.

**TYPE OF MEETING:** All meetings will be open to the public. NOSB has scheduled time for public input on Tuesday, June 8, 1999, from 1:30 p.m. until 5:00 p.m. in Room 3109–S. Individuals and organizations wishing to make an oral presentation at the meeting should forward their request to Ms. Thomas at the above address, or by FAX to (202) 205–7808, by the close of business June 4, 1999. While persons wishing to make a presentation may sign up at the door,

advance registration will ensure an opportunity to speak during the allotted time period, and will help the NOSB to better manage the meeting and accomplish its agenda. Individuals or organizations will be given approximately 5 minutes to present their views. All persons making an oral presentation are requested to provide their comments in writing, if possible. Written submissions may supplement any oral presentation that is made at the meeting. Attendees who do not wish to make an oral presentation are invited to submit written comments to the NOSB at the meeting, or to Ms. Thomas after the meeting at the above address. All persons submitting written comments should provide 20 copies.
