

Affected entities: Entities potentially affected by this action are those which are subject to The National Emission Standard for Hazardous Air Pollutants (NESHAP) for Shipbuilding and Ship Repair (Surface Coating) (40 CFR part 63, subpart II).

Title: NESHAP subpart II: Shipbuilding and Ship Repair (Surface Coating), OMB Control #2060-0330 and EPA ICR number 1712.02, expiration date May 31, 1999.

Abstract: The respondents are owners or operators of Shipbuilding and Ship Repair Facilities. Operations covered include: primer and top coat application in manufacturing processes and in ship repair processes. The NESHAP regulation 40 CFR part 63, subpart II, was promulgated on December 15, 1995. The Administrator has determined that Hazardous Air Pollutant (HAP) and Volatile Organic Compound (VOC) emissions from Shipbuilding and Ship Repair Facilities cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. In order to ensure compliance with the standards promulgated to protect public health, adequate record keeping and reporting is necessary. In the absence of such information, enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act. Record keeping and reporting are mandatory under this regulation. Records must be maintained for 5 years.

Burden Statement: Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Affected facilities must comply with the part 63 General Provisions recordkeeping and reporting requirements including: initial notifications; performance tests; and start-up, shut-down, malfunction reports. In addition there are record keeping and reporting requirements specific to the shipbuilding and repair NESHAP. Owners or operators of

shipbuilding and ship repair facilities to which this regulation is applicable must choose one of the four compliance options described in the final rule or install and monitor a specific control system to control coating emissions and reduce HAP emissions to the compliance level. The rule requires an initial one-time notification from each respondent and subsequent notification every 6 months to indicate their compliance status. At the time of the initial notification each respondent is also required to submit an implementation plan that describes compliance procedures. A respondent is also required to keep necessary records of data to determine compliance with the standards in the regulation. The data must be recorded monthly. A report must be submitted semi-annually by each respondent. There will be an estimated 100 respondents to the information collection requirements.

The total annual reporting and recordkeeping burden for this collection averaged over the next 3 years is estimated to be \$26,218 per year. The average burden, per respondent, is 772 hours per year.

Dated: May 14, 1999.

David N. Lyons,

Acting Director, Manufacturing, Energy and Transportation Division.

Notice of Fourth Meeting of the Mississippi River/Gulf of Mexico Watershed Nutrient Task Force

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; announcement of meeting.

SUMMARY: This document reschedules the Fourth Meeting of the Mississippi River/Gulf of Mexico Watershed Nutrient Task Force (Task Force) which was postponed from February as published in the **Federal Register** on February 10, 1999 (64 FR 6652). The purpose of this Task Force, consisting of Federal, State, and Tribal members, is to understand and address nutrient management and hypoxia related issues in the Mississippi River and Gulf of Mexico watersheds. The matters to be discussed at the meeting include six topical scientific reports on an assessment of the causes and consequences of hypoxia in the Gulf of

Mexico, and the work schedule for completion of an Action Plan for addressing hypoxia in the Gulf of Mexico. The science assessment and the Action Plan were requested by the National Science and Technology Council's Committee on Environment and Natural Resources (CENR) as required by section 604(a) and 604(b) of Public Law 105-383 Coast Guard Authorization Act of 1998. The meeting of the Task Force will be open to the public, and the public will be afforded an opportunity to provide input during open discussion periods.

DATES: 12:00 p.m.-5:00 p.m., and optional 6:00 p.m.-10:00 p.m. session on June 30, 1999; and 8:30 a.m.-12:30 p.m. on July 1, 1999.

ADDRESSES: Memphis Cook Convention Center, 255 N. Main Street, Memphis, TN; (901) 527-7300. The meeting is open to the public and is limited only by the space available. The meeting room accommodates approximately 125 people. The optional session on June 30 will be at Mud Island River Park, 125 North Front Street, Memphis, TN 38103.

FOR FURTHER INFORMATION CONTACT: Dr. Mary Belefski, U.S. EPA, Assessment and Watershed Protection Division (AWPD), 401 M Street, S.W. (4503F), Washington, D.C. 20460, telephone (202) 260-7061; Internet: belefski.mary@epa.gov.

SUPPLEMENTARY INFORMATION: The cost for dinner at the optional session on June 30 is \$15.00 and is limited to the first 75 people who make reservations by June 18, 1999. To make reservations for the optional Mud Island Session, contact Marquetta Davis, Tetra Tech, Inc., 10306 Eaton Place, Fairfax, VA 22030, telephone (703) 385-6000.

Dated: May 19, 1999.

Robert Wayland,

Director, Office of Wetlands, Oceans, and Watersheds.
