SUPPLEMENTARY INFORMATION:

Title: Royalty-in-Kind (RIK)

Determination of Need.

OMB Control Number: 1010-0119.

Abstract: The Minerals Management Service on behalf of the Secretary, performs Determinations of Need prior to issuing a Notice of Availability of Sale in the **Federal Register** advising industry of a forthcoming RIK sale. The first step in this process is to issue a **Federal Register** Notice requesting specific information from eligible refiners: location of refinery; desirability of offshore versus onshore crude; type of crude desired (e.g., Wyoming Sweet); ability to obtain long-term supply of desired crude (with supporting documentation such as "denial" by major supplier); ability to obtain desired crude at fair market prices (with supporting documentation that desired oil was not available or equitably priced for the area or region in question); percentage of total refining capacity attributable to Federal oil versus other sources; etc. Feedback from refiners (or

other interested parties, like lease owners or operators) will be used by MMS to assess current marketplace conditions, i.e., whether small, independent refiners have access to ongoing supplies of crude oil at equitable prices.

Burden Statement: The respondent burden for this collection is estimated to average 4 hours per each respondent to provide a written response to the information collection.

Respondents/Affected Entities:

Refiners or other interested parties such as lease owners or operators.

Frequency of Response: As necessary.

Estimated Number of Respondents: 25.

Estimated Total Annual Reporting and Recordkeeping Burden: 100 hours.

Comments: Section 3506(c)(2)(A) of the Paperwork Reduction Act requires each agency " * * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information." Agencies must specifically solicit comments to: (a) evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Send your comments directly to the offices listed under the addresses section of this notice. OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments by July 1, 1999.
