**Submission for OMB Review; Comment Request; Evaluation of National Youth Anti-Drug Media Campaign**

**SUMMARY:** Under the provision of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the National Institute on Drug Abuse of the National Institutes of Health submitted to the Office of Management and Budget (OMB) a request to review and approve the information collected listed below. This proposed information collection was previously published in the **Federal Register** on November 30, 1998 on page 65795 and allowed 60-days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented after October 1, 1995,

unless it displays a currently valid OMB control number.

**PROPOSED COLLECTION:** *Title:* Evaluation of National Youth Anti-Drug Media Campaign. *Type of Information Collection Request:* New. *Need and Use of Information Collection:* The White House Office of National Drug Control Policy has transferred funds to NIDA to conduct an independent, scientifically designed and implemented evaluation of the National Youth Anti-Drug Media Campaign, the first prevention campaign to use paid advertising to discourage youth from drug use. The study will assess the outcomes and impact of the national campaign in reducing illegal drug use among children and adolescents.

For this study, two different surveys will be conducted: (1) The National Survey of Parents and Youth, a cross-sectional household survey; and (2) a Community Longitudinal Study of Parents and Youth in four communities with an ethnographic component. All data will be collected using a combination of computer-assisted personal interviews (CAPI) and audio computer-assisted self-interviews (ACASI). The findings will form the basis of semiannual and annual reports on campaign progress. These reports will provide assistance in improving the national campaign, and will help to establish a rich database of information about the process involved in changing attitudes and behaviors by the mass media.

*Frequency of Response:* The National Survey of Parents and Youth will be carried out in 6 waves over a three-year period. Each data collection wave will last 6 months. The Community Longitudinal Study will be carried out annually over three years. *Affected Public:* Individuals and households. *Type of Respondent:* Children and parents. The annual reporting burden is as follows:

TABLE 1.—RESPONDENT AND BURDEN ESTIMATE

Type of respondents	Estimated number of respondents	Number of responses per respondent	Average time in hours per response	Estimated total burden hours	Estimated annual hour burden (over 3 years)
<b>National Survey of Youth and Parents (NSPY)</b>					
Screener Respondent .....	164,754	1	.07	11,533	3,844
Youth 9-11 .....	9,300	1	.58	5,394	1,798
Adolescents 12-18 .....	19,200	1	.75	14,400	4,800
Parents .....	20,100	1	.92	18,492	6,164
<b>Community Longitudinal Study of Parents and Youth (CLSPY)</b>					
Screener Respondent .....	28,500	1	.07	1,995	1 N/A
Youth 9-11 .....	2,150	3	.65	4,193	1,398
Adolescents 12-14 .....	2,150	3	.83	5,354	1,785

TABLE 1.—RESPONDENT AND BURDEN ESTIMATE—Continued

Type of respondents	Estimated number of respondents	Number of responses per respondent	Average time in hours per response	Estimated total burden hours	Estimated annual hour burden (over 3 years)
Parents .....	3,500	3	1.00	10,500	3,500
Total .....	<sup>2</sup> 249,654	.....	.29	71,861	<sup>3</sup> 23,289

<sup>1</sup> Respondents are screened in year one only.

<sup>2</sup> Some number of screener respondents are later also selected for a parent interview. The exact proportion cannot be estimated at this time.

<sup>3</sup> This number does not include screening for the CLSPY because screening is done in year one only.

There are no Capital Costs to report. There are no Operating or Maintenance Costs to report. Because of the sensitivity of collecting data from families in households involving children as young as 9 years old, and the importance of minimizing costs for repetitive, return visits to obtain respondent cooperation, NIDA is considering the provision of a reasonable cost incentive to reimburse respondents for their time.

Request for Comments: Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

*Direct Comments to OMB:* Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the: Office of Management and Budget, Office of Regulatory Affairs, New Executive Office Building, Room 10235, Washington, DC 20503. Attention: Desk Officer for NIH. To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact Susan L. David, Project Officer, Division of Epidemiology and Prevention Research, National Institute on Drug Abuse, 6001 Executive Blvd., Room 5153, MSC 9589, Bethesda, MD 20892-9589; or call non-toll-free number (301) 443-6504; or fax

to (301) 443-2636; or email your request, including your address, to: sd69t@nih.gov.

*Comments Due Date:* Comments regarding this information collection are best assured of having their full effect if received within 30 days of the date of this publication.

Dated: May 12, 1999.
